(4) A landlord on whose application a personal ledger has been opened may apply to the Collector for the payment of the amount at his credit in the ledger, and the Collector shall, unless there be any dispute, pay the amount accordingly.

(5) Every application under sub-rule (4) shall state whether there has been any change in the landlords, and, if so, the particulars of such change, and it shall be verified in the same manner as a plaint under the Civil Procedure Code, 1908.

(6) An application under sub-rules (3) and (4) by a co-sharer landlord for separate payment for his share, will be treated as an application under the first proviso to section 26C (3) of the Act; but unless owing to the existence of any dispute or similar reasons, the Collector directs otherwise, the provisions of rule 29 shall not apply and it shall not be necessary to issue notices on the other co-sharer landlords.

(7) For the maintenance of a personal ledger under this rule an annual fee for each separate account on the following scale shall be levied:

When the revenue or rent of the entire estate or tenure does not exceed Rs. 100, Rs. 10.

In all other cases, Rs. 25.

(8) A personal ledger opened under this rule shall be discontinued when the landlord or a co-sharer landlord intimates his unwillingness to continue it. The Collector may also refuse to renew a personal ledger if the annual fee prescribed in sub-rule (7) be not paid, or if it appears to him that owing to disputes and similar reasons it is not desirable to maintain such a ledger.

29C. (1) In cases where the transfer fee is remitted by postal money order but the payee has refused to accept payment thereof, and in all other cases except where the amount has been credited in the treasury accounts or in a personal ledger under rule 29A or 29B or has been otherwise paid, the amount or the balance of such amount, as the case may be, shall be kept in deposit for a period of 5 years from the date of the service of the notice mentioned in rule 26. When transfer fee is to be kept in deposit and when forfeited.

(2) Every application under section 101 (2) (a) shall specify—

(a) whether the applicant is a landlord or tenant;
(b) the local area, estate, tenure or part thereof for which the application is made;
(c) the interest of the applicant in the lands of the local area, estate, tenure or part thereof.

(3) Every application under section 103 shall specify—

(a) the status of the applicant, viz., whether he is a proprietor or a tenure-holder or a raiyat;

(b) the particulars specified in section 102 of the Act, in respect of which the application is made; and

(c) the number of tenants occupying the estate or tenure or part thereof, in respect of which the application is made, the total rent payable by them at the time, and the estimated area covered by the application (so far as the applicant is able to give these particulars).

(4) If the application under section 101 (2) (a) or under section 103 of the Act, is made by a proprietor, it shall not be admitted unless the name of the applicant and the extent of his interest are registered under the Land Registration Act, 1876. Ben. Act VII of 1876.

(9) If the amount so deposited proves more than sufficient to cover the cost of the proceedings, the unexpended balance will be refunded on their termination. If the amount deposited proves insufficient to cover such cost, the applicant shall, when required by the Collector, deposit from time to time such further sums as the Collector may think necessary for the completion of the proceedings. If he shall fail to do so, the proceedings may be stopped and the order allowing the application cancelled.

Procedure for making survey and preparing record-of-rights.

47. (1) When an order has been made under section 101 (*1*) or section 101 (*2*) of the Act directing that a survey shall be made and a record-of-rights prepared by a Revenue Officer in respect of the lands of any local area, estate or tenure or part thereof, the survey shall be made and the record-of-rights prepared in the manner described in the following rules (in this Part and in Part III of this Chapter) and by the following processes, namely:—

(*i*) Traverse survey.

(*ii*) Cadastral survey.

(*iii*) Erection of boundary marks.

(*iv*) Preliminary record-writing (or khanapuri).

(*v*) Local explanation (or bujharat).

(*vi*) Attestation.

(*vii*) Publication of the draft record.

(*viii*) Disposal of objections under section 103A.

(*ix*) Preparation of the settlement rent-roll, in cases in which a settlement of revenue is being or is about to be made.

(*x*) Preparation of the final record.

(*xi*) Publication of the final record.

(*xii*) Distribution of the final record and of printed maps; and recovery of costs where ordered under section 114.

(*xiii*) Settlement of fair rents under sections 105 and 105A.

(*xiv*) Trial of suits under section 106:

Provided that stage (*v*)—local explanation—may be omitted with the approval of the Director of Land Records.

(2) A Revenue Officer who has been appointed with the additional designation of "Settlement Officer" may, at any time before the publication of the final record, direct that any portion of the proceedings in respect of the lands of any local area, estate or tenure or part thereof, shall be cancelled and that the proceedings shall be carried out *de novo* from such stage as he may direct.

(3) When an order has been made under section 103 directing that all or any of the particulars specified in section 102 shall be ascertained and recorded with respect to any estate or tenure or part thereof, the Revenue Officer shall proceed in accordance with the following rules (in this Part and in Part III of this Chapter), so far as they may be applicable.

48. *Traverse Survey.*—The cadastral survey of the notified area shall be based upon a traverse survey, and such traverse shall ordinarily be carried out by theodolite observations. If possible, the traverse survey shall be connected with one or more points which have been fixed by previous surveys.

49. *Cadastral Survey.*—(1) In the course of proceedings under section 101 of the Act, a large-scale map showing roads, rivers, railways and other physical features of the country, as well as homesteads and other fields, shall be prepared for each village contemplated by section 115A of the Act as the unit of survey and record.

(2) When the area contained within the external boundaries of the village maps of the previous survey contemplated by section 115A is unsuitable as the unit of survey and record, or, if there has been no such previous survey, the Settlement Officer shall, after ascertaining, as far as possible, the opinions of the landlords and tenants concerned, submit his proposals for the determination of the area to be adopted as the unit of record and survey to the Board of Revenue through the controlling officers to whom he is subordinate. That unit shall, if sanctioned by the Board of Revenue, be adopted in framing the record-of-rights, but shall not be deemed to constitute a village within the meaning of the Act until a notification has been issued under section 3 (*10*) (*b*). The Board of Revenue shall submit a copy of its order in each case to the Local Government for the issue of the notification.

50. *Erection of Boundary Marks.*—Boundary marks of a permanent nature shall ordinarily be erected at every point where the boundaries of three villages meet, and may also be erected at any other points where this is necessary, in the opinion of the Revenue Officer, for the definition of any boundary.

51. *Preliminary Record-writing.*—At this and the two following stages the draft record shall be prepared. The draft record shall consist of statements of rights which are hereinafter styled the khatians. There shall ordinarily be a separate khatian for each person interested, or each group of persons jointly interested, in the land, whether as proprietor, tenure-holder, raiyat, under-raiyat or occupant, and each khatian shall show the rights and liabilities of each person or group of persons according to the particulars which have been specified in the notification under section 101. At this stage all such particulars shall find entry, with the exception that no entry shall be made as to the revenue, rent or cess, the class to which the tenant belongs, or the special conditions and incidents of the tenancy. At this stage there shall also be prepared a field-index or khasra arranged according to the serial numbers of the fields in the village. This field-index shall not form part of the draft record. Disputes regarding the ownership of land, or the ownership of any interest in land, shall be decided by a Revenue Officer or a kanungo in a summary manner and on the basis of actual possession.

52. *Local Explanation.*—When the areas of the fields have been extracted and entered in the preliminary record, a copy of each khatian shall be made over by a Revenue Officer or a kanungo to the person or body of joint persons in whose names the khatian has been opened, or to their representatives. Each khatian shall then be examined on the ground, with reference to the village map, by a Revenue Officer or a kanungo, and shall be explained to the person or persons concerned, or their representatives, if present. The Revenue Officer or kanungo shall make such corrections as are necessary in the map, in the draft record, and in the copies of the khatians which have been distributed, if they can be produced for this purpose. At this stage entries of the rent which is payable according to the statement of the landlord and according to the statement of the tenant shall be made in the draft khatians of the tenants and in such copies as are produced; but the other particulars which were omitted at the stage of preliminary record-writing shall be deferred until the stage of attestation.

53. *Attestation.*—This stage of the operations shall be taken up after the landlords and tenants have been allowed a sufficient interval to study their copies of the khatians. The attestation of each village shall be taken up at a convenient place in or near the village. Before attestation begins, a proclamation shall be published in the village giving due notice to the landlords and tenants and calling on them to appear before the Revenue Officer on the date fixed, bringing with them their copies of the khatians. As each person appears before him the Revenue Officer shall examine his khatian, read out all the important entries, make corrections where required, and see that the khatian is complete in all particulars. Disputes regarding the ownership of land, or the ownership of any interest in land, shall be decided by the Revenue Officer in a summary manner and on the basis of actual possession. In the khatian of each proprietor or group of proprietors he shall enter with his own hand the revenue payable to Government. In the khatian of each tenant or group of tenants he shall enter with his own hand the class to which the tenant or group of tenants belongs, the special conditions and incidents (if any) of the tenancy and the rent lawfully payable or deliverable to each landlord or group of landlords. In the khatian of each cultivating raiyat as defined in the Cess Act, the Revenue Officer shall, and in the khatian of each tenure-holder as defined therein, the Revenue Officer shall, as far as possible, record the cess lawfully payable to each landlord or group of landlords. The Revenue Officer shall then sign and date the office copy of the khatian, and if the copy of the khatian, which was given to the person or persons concerned, is produced, the Revenue Officer shall see that it corresponds with the office copy as attested. When the Revenue Officer has completed the attestation of all the khatians of a village, he shall draw up a formal proceeding to this effect.

Ben. Act IX of 1880.

54. *Publication of the Draft Record.*—The Revenue Officer shall publish the draft record-of-rights by placing it for public inspection, free of charge, during a period of not less than one month, at such convenient place as he may determine. A proclamation shall previously be published in each village, informing the landlords and tenants of the place at which the draft record of that village will be open to public

inspection, the period during which it will be open to such inspection, and the last date on which objections may be filed. Notwithstanding anything contained in the proclamation, the Revenue Officer may extend the period during which the draft record will be open to inspection and during which objections may be filed.

55. *Objections under section 103A.*—(1) Blank forms of objection shall be supplied free of charge and objections shall, as far as practicable, be made on such forms. Along with the original objection, the objector shall file a copy or copies for service on all other persons who, in the opinion of the Revenue Officer, are materially interested in the case. The Revenue Officer shall issue notices informing the objector and all other persons so interested of the date and place fixed for the hearing of the objection, and with each notice to a person other than the objector he shall forward a copy of the objection. Objections regarding the ownership of land, or the ownership of any interest in land, shall be decided by the Revenue Officer on the basis of actual possession. The record shall contain the names of the witnesses examined and an abstract of the reasons for the decision. When a Revenue Officer directs that a change shall be made in the rent recorded as payable by any tenant he shall direct that a corresponding change shall be made in the cess, if any recorded as payable by such tenant. Objections shall not be disposed of in the absence of any of the parties materially interested, or their representatives, unless the Revenue Officer be satisfied, for reasons to be recorded in writing, that the notice was duly served on the person concerned.

(2) Whenever the Revenue Officer has been unable, before the publication of the draft record, to enter the cess payable by all or any of the tenure-holders in any local area, and whenever, owing to a revaluation duly made after the publication of the draft record, there have been changes in the cess lawfully payable by all or any of the tenure-holders in such local area, the Collector may, at any time before the final publication of the record, make an objection to the omissions or entries in question, and the Revenue Officer shall thereupon proceed, notwithstanding anything contained in sub-rule (1) of this rule, to consider the objection, and, if necessary, to make in the draft record of such local area entries or revised entries of the cess which is then lawfully payable by each tenure-holder concerned:

Provided that no such entry or revised entry shall be made unless the tenure-holder has been previously informed of the proposed entry and has been given an opportunity of objecting thereto.

56. *Preparation of a settlement rent-roll.*—Where land revenue is being, or is about to be, settled, the Revenue Officer shall prepare a rent-roll for each village, in accordance with the following procedure:—

(*i*) Before preparing the rent-roll the Revenue Officer shall issue a proclamation informing the landlords and tenants of the time and place at which the preparation of the rent-roll will begin. If any tenant be absent, the Revenue Officer shall make no entry in the rent-roll which would have the effect of altering the rent of that tenant until a special notice has been duly served on that tenant.

(*ii*) When the Revenue Officer is preparing the settlement rent-roll on the basis of a table of rates, he shall consult the landlord and tenants of the village regarding their own classification of the lands therein and regarding the relative capability of each class of land, according to that classification. When specifying in the table of rates the rate of rent which is fairly and equitably payable in respect of each class of land, the Revenue Officer shall specify and have regard to the rate of rent which is now being paid in respect of each class of land, and shall also have regard to the statements of the landlords and tenants as to the classification and relative capability of lands. Before settling any rent upon the application of the table of rates, the Revenue Officer shall consider the circumstances of the tenant and shall compare the total rent which he is now paying with the rent which he would pay according to the table of rates. He shall also consider whether the land held by the tenant is good or bad land of its class.

(*iii*) When determining the final entries to be made in the rent-roll, the Revenue Officer shall read out, or cause to be read out in his presence, the principal entries relating to the holding and rent of each tenant whose rent is to be settled, and shall enter in the rent-roll with his own hand the fair rent settled for each such tenant.

(*iv*) The Revenue Officer shall enter in the settlement rent-roll the cess which is payable by each tenant to his landlord after the determination of the fair rent.

(*v*) The publication of the draft table of rates, if any, and of the draft settlement rent-roll shall be carried out in the manner and for the period prescribed in the case of the publication of the draft record-of-rights.

(*vi*) Objections under section 104B (*3*) or under section 104E of the Act shall ordinarily be disposed of by the Revenue Officer, in or near the village in which the land is situated. The Revenue Officer shall record his reasons for each order on an objection. Appeals will lie against these orders to the superior Revenue authority mentioned in rule 45.

57. ***Preparation of the Final Record.***—When all objections under section 103A of the Act have been disposed of, and when the settlement rent-roll, if any, has been prepared, sanctioned and incorporated with the record, and when the draft record has been corrected in accordance with the original and appellate orders on all objections, the Revenue Officer shall proceed to frame the final record. The final record shall be prepared in conformity with the draft record corrected as above, and shall consist of a series of khatians prepared on forms which are generally similar to the forms used for the khatians of the draft record. The khasra shall not form part of the final record. The final record shall be printed or prepared in manuscript, according as the Local Government may, by general or special order, determine.

58. ***Publication of the Final Record.***—The Revenue Officer shall publish the final record-of-rights by placing it for public inspection free of charge, during a period of not less than one month, at such convenient place as he may determine. A proclamation shall previously be published in each village, informing the landlords and tenants of the place at which the final record of that village will be open to public inspection and the period during which it will be open to such inspection.

59. *Distribution of printed maps and of copies of the Final Record.*—The maps which have been prepared under rule 49 (1) may be printed under the authority of the Local Government, and may be distributed to public officers, to landlords and tenants and to others, in such manner as the Local Government may, from time to time, by general or special order, direct. Copies of the final record-of-rights, or of portions thereof, shall be printed or prepared in manuscript and shall, after certification under section 76 of the Indian Evidence Act, be distributed to public officers, to landlords and tenants and to others, in such manner as the Local Government may, from time to time, by general or special order, direct. The printed maps and the copies of the record or of portions thereof, which are distributed under this rule to persons other than public officers shall be distributed free or on payment, according as, in the case of each local area, the Local Government may direct. When payment is required the sums so received shall ordinarily be adjusted against the expenses incurred on account of survey and settlement, should the account of those expenses still be open.

Part III.—Procedure After Final Publication.

SETTLEMENT OF FAIR RENTS UNDER SECTIONS 105 AND 105A.

60. (1) When the landlord or tenant applies for the settlement of a fair rent, he shall be considered as plaintiff and the opposite party as defendant. The proceedings shall be dealt with as suits and, subject to the directions contained in this rule, the Revenue Officer shall adopt, as far as it is applicable, the procedure laid down in the Code of Civil Procedure, 1908, for the trial of suits.

(2) When the estate or tenure is managed by the Court of Wards or by a manager appointed by the District Judge under section 95 of the Act and a settlement of revenue is not being or is not about to be made, the procedure laid down in this rule for recording and settling rents shall be followed, the manager of the estate or the tenure being regarded as the landlord.

(3) When a landlord or tenant applies for the settlement of fair rent notice shall be served on every person interested in the application, together with a copy of the application, or extract therefrom, or summary thereof, so far as the application concerns such persons.

(4) With the consent of the Revenue Officer, any number of tenants occupying land under the same landlord in the same village may make a joint application for the settlement of rent, or may be joined as defendants in the same proceedings on a similar application by the landlord:

Provided that, if at any time it appears to the Revenue Officer that the question between any two of the parties, of whom one is so joined with others, cannot conveniently be so jointly tried, he may order a separate trial to be held of that question, or he may pass such order, in accordance with the Code of Civil Procedure, 1908, for the joint or separate disposal of the application, as he may think fit.

(5) On the date fixed for the settlement of fair rents, or any subsequent date to which the proceedings may be adjourned, the Revenue Officer shall read aloud, or cause to be read aloud in his presence, the name of each tenant whose rent has to be settled, the area of his tenancy, and the existing rent, and shall then proceed to settle a fair rent under the provisions of section 105 of the Act.

(6) When a landlord or tenant does not attend, after due service of notice has been proved, the procedure may be *ex parte*.

(7) Where a landlord or a tenant appears and the fair rent is not settled under sub-section (*5*) or sub-section (*6*) of section 105 of the Act, that is, by the acceptance by the parties of a rent proposed by the Revenue Officer, or by compromise, the Revenue Officer shall record evidence in the manner prescribed in clause (*f*) of section 148 of the Act for the trial of rent suits, and shall settle a fair and equitable rent according to law:

Provided that in important cases the Revenue Officer may, in his discretion, record evidence at length.

(8) When a fair rent has been settled under these rules, it shall be entered in the khatian as the rent payable in respect of the tenancy from the date prescribed by section 110 of the Act.

(9) It shall not be necessary for a Revenue Officer to draw up a separate decree with regard to the fair rent settled; but the entry made in his decision or schedule attached thereto with regard to the fair rent settled shall be held to be a decree.

(10) A proceeding under section 105A of the Act shall be considered as part of the proceeding under section 105 in which the issue arose, and the record of a proceeding under section 105A shall be considered as part of the record of the proceeding under section 105. In trying and deciding issues under section 105A, the Revenue Officer shall record evidence in the manner prescribed in sub-rule (7) of this rule.

61 *Suits under section 106.*—Proceedings under section 106 of the Act shall be dealt with in all respects as suits between the parties.

62. Notwithstanding anything contained in these rules, the procedure prescribed in clause (ff) of section 148 of the Bengal Tenancy Act, 1885, as being applicable to suits for the recovery of rent, shall be applicable *mutatis mutandis* to proceedings, under sections 105, 105A or 106 of that Act.

Rules under Order XXVI, rule 9, of the Civil Procedure Code, not to apply to proceedings under section, 105, 105A or 106 of the Bengal Tenancy Act.

63. The rules issued by the Local Government under Order XXVI, rule 9, of the Civil Procedure Code, 1908, shall not apply to proceedings in the Court of a Revenue Officer under sections 105, 105A or 106 of the Act.

Applications under section 108A by whom to be dealt with.

64. Applications under section 108A of the Act for the correction of *bonâ fide* mistakes must be dealt with by a Revenue Officer specially empowered by the Local Government. If they are presented to a Revenue Officer not specially empowered under that section, he shall receive them and forward them with his report to the Revenue Officer so empowered. The court-fee payable on every such application is eight annas.

65. *Service of notices.*—(1) For the service of every notice under this Act, not being a notice issued by any Revenue or Civil Court [fees for serving which are regulated by the Court-fees Act, 1870 (VII of 1870)], and not being provided for any other rule made under this Act, a process fee of 12 annas shall be levied, if the notice be directed to one or more persons residing in the same village.

If a peon carries more than one process involving charges for railway fare, boat hire, etc., the sum leviable shall be charged in equal shares upon all the processes so carried. The rate at which such boat hire is to be charged shall be the same as those fixed for criminal processes under rule VII of the Rules prescribed by the High Court under clause (ii) of section 20 of Act VII of 1870, and shall be sufficient only to cover, on the whole, the actual cost of hiring boats, or of such boat establishment as it may be necessary to maintain for the purpose of serving processes of this nature.

(4) If a peon is detained at the place of service for more than 24 hours at the request of the person at whose instance the process was issued, or of his agent, such person or agent shall then and there pay demurrage at the rate of 5 annas a day and obtain a receipt from the peon. Unless this demurrage is paid, the peon shall decline to wait. No demurrage shall be charged if the delay was not due to the person requiring the process or to his agent.

66. For the cost of transmission of money deposited in cases (a) and (b) of section 61 referred to in section 63 (1) of the Act, the fee payable for sending the amount by postal money order shall be levied.

NOTIFICATIONS.

Fourth publication.

No. 21—The 18th January 1929.—The following draft of rules which, in exercise of the powers conferred by section 11 of the Canals Act, 1864 (Bengal Act V of 1864), the Governor in Council intends to make for the regulation of traffic in the line of navigation known as the Mahananda river (100 miles in length) in the districts of Malda and Rajshahi which has been declared under section 2 of the said Act in Bengal Government notification No. 10-I., dated the 18th October 1927, published in Part I of the *Calcutta Gazette* of the 27th idem, is hereby published for the information of persons likely to be affected thereby.

II. The draft will be taken into consideration on or after the 10th April 1929, and any objections or suggestions received by the undersigned before that date will be considered:—

Draft Rules.

1. All vessels, when moored, must be made fast by the bow and stern along the bank so as not to obstruct other vessels passing in the river.

2. In such portions of the river where only one towing path exists, vessels must be moored on the off-side and the towing path side kept clear.

3. Only one vessel is allowed to make fast along and in line with the river banks, and no other vessel is to be made fast or to be placed outside of vessels so secured without the special permission of the Supervisor. No vessel or raft is to be placed in such a position as to endanger the safety, or obstruct the passage, of other vessels, and all vessels are to be moored in such places and in such a manner as the Supervisor may at any time direct.

4. The Supervisor may, by notification, prohibit the dropping of anchors or the erection of bamboos or *luggees* in or on any portion of the river or banks, and no anchors may be dropped or bamboos or *luggees* erected at such prohibited sites.

5. No vessel shall be moored at a distance of less than 500 feet from the junction of two or more rivers.

6. Vessels are not permitted to anchor or moor in the restricted portions of the channels maintained by training works.

7. Before entering such restricted channels the person in charge of the vessel must lighten his vessel sufficiently to prevent grounding in the channel.

In the event of any vessel running aground, the person in charge of the vessel must arrange for its immediate release by all means possible, failing which it will be lawful for the Supervisor or his subordinates to arrange to remove such vessel and to recover the costs of such operation from the owner of the vessel as provided for in rule 11 below.

8. No person is allowed to place any obstruction on the river banks so as to impede free passage along them. No person is permitted to place any obstruction in the river bed so as to impede navigation or cause any deterioration of the channel.

9. No person shall wilfully or negligently allow a vessel to sink in the river.

10. In every case of a sunken vessel, whether due to negligence or otherwise, the Supervisor and his subordinates shall offer every assistance in removing the same.

11. If three days after the occurrence of a wreck it is seen that prompt measures are not being taken by the owner to remove the sunken vessel from the line of navigation, the Supervisor and his subordinates shall make their own arrangements for the removal of the same at the expense of the owner, provided that, when the wreck obstructs the fairway, they may take action at once to remove the same.

A notice must be affixed on the wreck when recovered, calling on those concerned to pay to the Supervisor all expenses incurred in the recovery or removal of the wreck, and intimating that if the sum be not paid within fifteen days of the date of notice, the vessel and its furniture, or so much of it as may be necessary for the recovery of the dues, will be sold, the proceeds of the sale being dealt with as directed in section 9 of the Canals Act of 1864.

12. Every Canal Officer is authorized to remove any vessel, anchor, pole or any other thing which he may find in a position in contravention of these rules and to deal with it in such manner as may be necessary to give effect to the rules.

13. Whenever any laden vessel which has been sunk, has been recovered, or when a laden vessel has been seized under the provisions of the Canals Act or of these rules, the Supervisor must give immediate notice of the same to the owner or his agent, calling upon him to remove the cargo without delay and informing him that he will be required to pay all expenses necessary for the proper custody and storage of the cargo until removed.

14. If the Supervisor be unable to ascertain the name and the place of business or abode of the owner of the cargo of any vessel seized under the said Act, he must notify the seizure by advertisement in his office and in at least one public newspaper. Such notice shall require the owner to cause the immediate removal of the cargo and to pay all expenses incurred in providing for its proper custody and storage.

15. The Supervisor may incur whatever expenses are necessary for the proper custody and storage of the cargo of any vessel seized under the Act and, if the cargo be not removed within ten days from the date of seizure, he may sell the same at a public auction to be held in his office or at the place of seizure to the highest bidder, after giving ten days' notice of the auction by advertisement in at least one newspaper.

16. The money realised at such a sale is to be applied, in the first instance, to defray any expenditure that may have been incurred by the Supervisor on account of the cargo sold, and the balance, if any, is to be held in deposit to be paid to the owner of the said cargo on his applying for the same.

17. No officer of any description or rank employed on the river shall, either directly or indirectly, bid for or purchase any article sold under these rules or under the provisions of the Act.

18. Any person (other than the Supervisor or his subordinates), who infringes any of these rules, shall be liable to a fine not exceeding fifty rupees for any one infringement and to an additional fine at a rate not exceeding five rupees a day if the infringement be continued.

THE Bengal and Madras Service Family Pension Fund which is provisionally managed and assisted by Government has for its object the provision of monthly pensions for the maintenance of the widows and children of subscribers and is open, with certain exceptions, to all active and pensioned members of the Uncovenanted service of Government (except those serving under the Government of Bombay), and to Local Fund servants earning pensions from Government. Some of the special features of the fund are—(1) that widowed daughters incapable of remarriage or children labouring under such mental or bodily infirmities as incapacitate them from earning their livelihood or preclude the possibility of marriage (in case of a daughter) are admitted to its benefits ; and (2) that subscribers to the Widows' and Daughters' branches are entitled to a refund of 30 per cent. of the premia paid, should the nominee predecease them after five years of admission. The second quinquennial valuation of the Fund has been completed by the Actuary to the Government of India, and his report discloses very favourable results. For forms of application and rules of the Fund apply to the Accountant-General, Bengal, Imperial Secretariat Buildings, Calcutta.

(*2*) The rent fixed by a contract under the provisions of sub-section (*1*), shall not be liable to enhancement during a period of fifteen years from the date of such contract.

Enhancement by suit.

48D. (*1*) The landlord of an under-*raiyat* may, subject to the provisions of this Act, institute a suit to enhance the rent of the under-*raiyat*, and to eject the under-*raiyat* if he refuses to pay the rent determined by the Court.

(*3*) The Court shall thereupon inquire from the under-*raiyat* if he agrees to pay the rent so determined. If the under-*raiyat* agrees, he shall be entitled to remain in occupation of his holding at that rent for a term of fifteen years from the date of the agreement.

(*4*) If the under-*raiyat* does not agree to pay the rent so determined, the Court shall pass a decree for ejectment.

(*5*) A decree for ejectment passed under this section shall take effect from the end of the agricultural year in which it is passed.

Application for restitution by under-*raiyat*.

48E. When a *raiyat* has ejected an under-*raiyat* on the grounds specified in clause (*c*) or clause (*d*) of section 48C, the under-*raiyat* may apply to the Court by which the decree for ejectment was passed to be put in possession of the holding from which he was ejected by way of restitution if, within four years of the ejectment, the landlord sublets the holding or any portion thereof; and thereupon the Court may, if satisfied after inquiry that the landlord did not use the land for his homestead, or for cultivation by himself or by hired servants or by members of his family or with the aid of partners, order a recovery of possession on such terms, if any, with respect to compensation to the persons injured as to the Court may seem just.

Explanation 1.—When the lease comprises a portion or a share of the lessor's holding the rent of that portion or share shall for the purpose of determining the landlord's fee under this sub-section bear the same proportion to the rent of the entire holding as the area or share sublet bears to that of the entire holding.

Explanation 2.—A lease may include either a *patta* executed by the lessor or a *kabuliyat* executed by the lessee but where the landlord's fee has been paid for the *patta* it shall not be again payable for the *kabuliyat* and *vice versa*.

DEPARTMENT OF AGRICULTURE, BENGAL.

Third and Final Report on the Winter Rice Crop of Bengal, 1928-29.

(NOTE.—On an average of the five years ending 1926-27, the area under winter rice in Bengal has represented some 18·4 per cent. of the total area under rice in British India.)

Character of the Season.—In the second forecast issued in December last, the weather was already reviewed as having been favourable for the crop. The period covered by this forecast is that of the harvest, during which conditions were also favourable for field operations.

Acreage.—According to the estimates returned by the District Officers, the total area under winter rice is 15,357,400 acres, as compared with 13,210,100 acres last year. The large increase in area is attributed to favourable weather at the time of transplantation.

Outturn.—From the summary of the district returns appended, it will be seen that Khulna, Bankura, Rajshahi and Rangpur report more than a normal crop (*i.e.*, 108, 110, 117 and 105 per cent., respectively). Twelve districts report a normal crop of 100 per cent., ten districts a crop varying from 80 to 99 per cent. Only one district, viz., Nadia, reports a crop of 67 per cent.

As compared with the second forecast a better crop has been harvested in six districts, while in the district of Bakarganj only the crop has slightly deteriorated from the previous estimate. In the remaining districts there has been no change.

According to the above estimates, the provincial outturn works up to 99 per cent. as against 78 per cent. of the normal last year. In my opinion the same percentage outturn as estimated in the second forecast, viz., 105 was reaped for the province as a whole.

Accepting 105 per cent. as the provincial outturn, the gross yield of the crop, on the basis of a normal yield of 12½ maunds of clean grain per acre, is estimated at 7,404,500 tons this year as against 4,731,400 tons last year, or an increase of about 56 per cent.

DEPARTMENT OF AGRICULTURE, BENGAL.

Monthly Weather and Crop Report of Bengal for January 1929.

I. **Character of the Season.**—During the first sixteen days of the month the weather was dry, but since then heavy showers fell almost throughout the Presidency. The usual rainfall statement is appended.

II. **Progress of agricultural operations.**—Harvesting of winter paddy was completed; thrashing continued in full swing. Transplantation of summer paddy seedlings and cutting and pressing of sugarcane were proceeding favourably. Preparation of lands for jute and other autumn crops was facilitated by the recent showers.

III. **State of standing crops.**—The condition of standing spring crops was reported to be generally fair.

IV. **Prospects and probable outturn.**—The prospects of late spring crops improved by the rainfall in the latter part of the month. The outturn of sugarcane crop is estimated at 81 per cent. of the normal and a fairly satisfactory outturn of spring crops is anticipated.

V. **Damage to standing crops.**—The rainfall during the latter part of the month is reported to have caused slight damage to the standing *rabi* crops in parts of Burdwan, Bankura, Hooghly and Bogra.

VI. **Condition of agricultural stock.**—The condition of live-stock was reported to be generally fair. Sporadic cases of cattle-disease were, however, reported from about five districts of the Presidency and from the Cooch Behar and Tripura States.

VII. **Failure of pasturage and fodder.**—The supply of fodder was reported to be generally sufficient throughout the Presidency.

VIII. **Prices of food-grains.**—During the second half of the month the price of common rice of the cheapest quality rose in three districts, fell in eight and remained stationary in the rest of the Presidency. The prices ranged from 5¼ seers per rupee in the 24-Parganas to 10 seers per rupee in the Chittagong Hill Tracts.

IX. **Condition of agricultural population.**—The condition of agricultural population was, on the whole, fair.

IRRIGATION DEPARTMENT.

NOTIFICATION.

Fifth publication.

No. 21—The 18th January 1929.—The following draft of rules which, in exercise of the powers conferred by section 11 of the Canals Act, 1864 (Bengal Act V of 1864), the Governor in Council intends to make for the regulation of traffic in the line of navigation known as the Mahananda river (100 miles in length) in the districts of Malda and Rajshahi which has been declared under section 2 of the said Act in Bengal Government notification No. 10-I., dated the 18th October 1927, published in Part I of the *Calcutta Gazette* of the 27th idem, is hereby published for the information of persons likely to be affected thereby.

II. The draft will be taken into consideration on or after the 10th April 1929, and any objections or suggestions received by the undersigned before that date will be considered:—

Draft Rules.

1. All vessels, when moored, must be made fast by the bow and stern along the bank so as not to obstruct other vessels passing in the river.

2. In such portions of the river where only one towing path exists, vessels must be moored on the off-side and the towing path side kept clear.

3. Only one vessel is allowed to make fast along and in line with the river banks, and no other vessel is to be made fast or to be placed outside of vessels so secured without the special permission of the Supervisor. No vessel or raft is to be placed in such a position as to endanger the safety, or obstruct the passage, of other vessels, and all vessels are to be moored in such places and in such a manner as the Supervisor may at any time direct.

4. The Supervisor may, by notification, prohibit the dropping of anchors or the erection of bamboos or *luggees* in or on any portion of the river or banks, and no anchors may be dropped or bamboos or *luggees* erected at such prohibited sites.

5. No vessel shall be moored at a distance of less than 500 feet from the junction of two or more rivers.

6. Vessels are not permitted to anchor or moor in the restricted portions of the channels maintained by training works.

7. Before entering such restricted channels the person in charge of the vessel must lighten his vessel sufficiently to prevent grounding in the channel.

In the event of any vessel running aground, the person in charge of the vessel must arrange for its immediate release by all means possible, failing which it will be lawful for the Supervisor or his subordinates to arrange to remove such vessel and to recover the costs of such operation from the owner of the vessel as provided for in rule 11 below.

8. No person is allowed to place any obstruction on the river banks so as to impede free passage along them. No person is permitted to place any obstruction in the river bed so as to impede navigation or cause any deterioration of the channel.

9. No person shall wilfully or negligently allow a vessel to sink in the river.

10. In every case of a sunken vessel, whether due to negligence or otherwise, the Supervisor and his subordinates shall offer every assistance in removing the same.

11. If three days after the occurrence of a wreck it is seen that prompt measures are not being taken by the owner to remove the sunken vessel from the line of navigation, the Supervisor and his subordinates shall make their own arrangements for the removal of the same at the expense of the owner, provided that, when the wreck obstructs the fairway, they may take action at once to remove the same.

A notice must be affixed on the wreck when recovered, calling on those concerned to pay to the Supervisor all expenses incurred in the recovery or removal of the wreck, and intimating that if the sum be not paid within fifteen days of the date of notice, the vessel and its furniture, or so much of it as may be necessary for the recovery of the dues, will be sold, the proceeds of the sale being dealt with as directed in section 9 of the Canals Act of 1864.

12. Every Canal Officer is authorized to remove any vessel, anchor, pole or any other thing which he may find in a position in contravention of these rules and to deal with it in such manner as may be necessary to give effect to the rules.

13. Whenever any laden vessel which has been sunk, has been recovered, or when a laden vessel has been seized under the provisions of the Canals Act or of these rules, the Supervisor must give immediate notice of the same to the owner or his agent, calling upon him to remove the cargo without delay and informing him that he will be required to pay all expenses necessary for the proper custody and storage of the cargo until removed.

14. If the Supervisor be unable to ascertain the name and the place of business or abode of the owner of the cargo of any vessel seized under the said Act, he must notify the seizure by advertisement in his office and in at least one public newspaper. Such notice shall require the owner to cause the immediate removal of the cargo and to pay all expenses incurred in providing for its proper custody and storage.

15. The Supervisor may incur whatever expenses are necessary for the proper custody and storage of the cargo of any vessel seized under the Act and, if the cargo be not removed within ten days from the date of seizure, he may sell the same at a public auction to be held in his office or at the place of seizure to the highest bidder, after giving ten days' notice of the auction by advertisement in at least one newspaper.

16. The money realized at such a sale is to be applied, in the first instance, to defray any expenditure that may have been incurred by the Supervisor on account of the cargo sold, and the balance, if any, is to be held in deposit to be paid to the owner of the said cargo on his applying for the same.

17. No officer of any description or rank employed on the river shall, either directly or indirectly, bid for or purchase any article sold under these rules or under the provisions of the Act.

18. Any person (other than the Supervisor or his subordinates), who infringes any of these rules, shall be liable to a fine not exceeding fifty rupees for any one infringement and to an additional fine at a rate not exceeding five rupees a day if the infringement be continued.

RESOLUTION.

New Delhi, the 11th February 1929.

No. F.-81-R.-1/24.—In supersession of the rates of contribution for pension and leave-salary, fixed in this Department letters No. 64-E.B., dated the 27th January 1922, and No. F.-81-C. S. R./24, dated the 4th August 1924, for officers other than military officers in foreign service, the Governor-General in Council is pleased to prescribe, with reference to Fundamental Rules 116 and 117 as amended by the Secretary of State in Council in his Resolution dated the 5th September 1928, and published with this Department Resolution No. F.-81-R.-I/24, dated the 1st November 1928, the rates of contributions shown in the Annexure to this Resolution. The general principles on which the revised rates have been calculated are explained below.

2. The rates of contribution for pension have been based on the pensionary benefit admissible to an officer according to the Service or the grade to which he belongs instead of on the actual pay drawn in foreign service, as was the case with the rates which are now being superseded. The pensionary benefit admissible to a member of the Indian Civil Service has been taken at £1,000 *per annum*, which is the amount of full pension earned by him after 25 years' service; and to a member of any of the Superior Civil Services other than the Indian Civil Service, Rs. 8,800 *per annum*, which is made up of Rs. 7,000 earned by him as ordinary pension after 30 years' service, and Rs. 1,800 the estimated amount of additional pension which is earned on the average by members of these services who are transferred to foreign service. The pensionary benefit admissible to a member of a Provincial or Subordinate Service has been taken to be one-half of the maximum pay of the grade substantively held by him in Government service. The reason for calculating the rates of contribution in respect of members of these two classes of services in a manner different from that adopted in the case of other services is that in their case pension is not subject to any fixed maximum. The rates have been calculated in sterling where the pension is a sterling pension or is payable in sterling at a privileged rate of exchange, and the calculations have been so made as to provide a sliding scale of contribution according to length of service roughly parallel to the annual increase of pay in Government service.

3. The rates of contribution for leave-salary have been calculated, as before, on the basis of actual pay drawn in foreign service. The increase in these rates is due to the fact that, when the previous rates were calculated, the more liberal leave rules of 1920 and 1922 had just been introduced, and there were no data on which to base an estimate of the amount of leave which an officer would normally take under those rules. It has now become possible to gauge with fair accuracy the amount of leave taken by officers of the various services, and the revised rates are based equitably on recent experience.

4. The rate of interest adopted in the calculations is 4½ *per cent. per annum*, and the rates of mortality assumed for the various classes of Government servants are based on expert actuarial advice.

5. The revised rates take effect from the 1st March 1929. The question, however, of the rates at which contribution for pension will be recovered in the case of Government servants transferred to foreign service before the 5th September 1928, who do not belong to the Superior Services and who retire either directly at the end of their present sanctioned term of foreign service or within three years of its conclusion and are entitled, in accordance with the provisions of the old Fundamental Rule 116, to a pension calculated wholly or partly, as the case may be, on their pay in foreign service, is still under consideration, and the decision arrived at will be announced in due course.

6. The rates of contribution for pension and leave-salary in respect of military officers in foreign service are at present under revision, and will be promulgated as soon as possible.

7. A Government servant who is a subscriber to a Contributory Provident Fund and who is transferred to foreign service will, if he is allowed to retain that privilege, continue to pay such monthly subscriptions as he would have paid from time to time had he not been transferred to foreign service. The foreign employer, or the officer himself, according to the arrangement made under clause (*c*) of Fundamental Rule

115, will in addition pay, at such times as Government may prescribe in each case, a contribution equal in amount to what Government would have contributed to his account in the Fund had he not been transferred to foreign service.

ORDERED that the Resolution be published in the *Gazette of India.*

Legislative Department.

NOTIFICATION.

No. 431L., dated Calcutta, the 16th February, 1929.—The following Bills which were introduced in the Bengal Legislative Council on the 8th February, 1929, are hereby published for general information, together with the Statement of Objects and Reasons annexed thereto:—

THE PREVENTION OF DANGEROUS DISEASES BILL, 1928.

WHEREAS it is expedient to provide for the control and prevention of dangerous diseases in Bengal;

And whereas the previous sanction of the Governor-General has been obtained under sub-section (3) of section 80A of the Government of India Act to the passing of this Act;

5 & 6, Geo. V, c. 61; 6 & 7, Geo. V, c. 37; 9 & 10 Geo. V, c. 101.

It is hereby enacted as follows:—

1. (*i*) This Act may be called the Prevention of Dangerous Diseases Act, 1928.

(*ii*) It extends to the whole of Bengal (except places where the Calcutta Municipal Act, 1923, is in force).

(*iii*) It shall come into force on

2. For the purpose of this Act, unless there is anything repugnant in the subject or context,—

(*a*) "Dangerous diseases" mean—

(*i*) cholera, plague, small-pox, cerebrospinal meningitis, diphtheria, open tuberculosis, and

(*ii*) any other epidemic, endemic or infectious disease which the Local Government may, by notification in the *Calcutta Gazette*, declare to be a dangerous disease for the purposes of this Act.

3. Every medical practitioner who, in the course of his practice, becomes cognizant of the existence of any dangerous disease in any private or public dwelling house, other than a public hospital, shall give information of the same with the least practicable delay to the President of the Union Panchayet, or Chairman of the Municipality or the Health Officer, within whose jurisdiction the disease happens to occur in such form and with such details as the Local Government may direct from time to time.

4. The President of the Union Panchayet, or the Chairman of the Municipality, or the Health Officer, or any officer employed and authorised by the aforesaid in their behalf may, at any time by day or by night without notice or by giving such notice of his intention as may in the circumstances appear to him to be reasonable, inspect any place within his jurisdiction in which any dangerous disease is reported or suspected to exist and take such measures as he may think fit to prevent the spread of the said disease beyond such place.

5. (*i*) If it appears to the President of the Union Panchayet, or the Chairman of the Municipality, or the Health Officer that the water in any well, tank, or other place within his jurisdiction, is likely, if used for the purposes of drinking or for any other domestic purpose, to endanger or cause the spread of any dangerous disease, he may, by public notice, prohibit the removal, or use of the said water for such purpose.

(*ii*) No person shall remove or use for such purpose any water in respect of which any such public notice has been issued.

6. (*i*) If the President of the Union Board, or the Chairman of the Municipality, or the Health Officer or any officer authorised by the aforesaid in their behalf, is of opinion that the cleansing or disinfecting of any building or any part of a building or any article therein which is likely to retain infection, or any tank, pool, or well adjacent to a building, would tend to prevent or check the spread of any dangerous disease, he may cleanse, disinfect such building, part, article, tank, pool,

The Prevention of Dangerous Diseases Bill, 1928.

(Clauses 7—9.)

or well and may by written notice require the occupier of such building or any part thereof to vacate the same for such time as may be prescribed in such notice.

(*ii*) The cost of cleansing or disinfecting any building or part thereof or any article therein under sub-section (*i*) shall be paid by the occupier of such building and the cost of cleansing or disinfecting any tank, pool or well under the said sub-section shall be paid by the person in actual possession of such tank, pool or well or, if there be no such person, by the owner thereof:

Provided that if, in the opinion of the President, Union Panchayet, or the Chairman of the Municipality, or the Health Officer, the owner or occupier is from poverty unable to pay the said cost,

the President of the Union Panchayet, or the Chairman of the Municipality, or the Health Officer may direct payment thereof from the funds at their disposal.

7. The President of any Union Board, or the Chairman of any Municipality, or the Health Officer may give a reward of any sum not exceeding one rupee to any person giving information about the existence of any dangerous disease at any place within his jurisdiction.

8. It shall be competent for the Local Government to prescribe from time to time what diseases are to be deemed dangerous diseases for purposes of this Act and to publish the same in the *Calcutta Gazette* and to prescribe the form and details to be supplied by medical practitioners under section 3 of the Act.

9. Whoever knowingly contravenes the provision of this Act, shall be liable to pay a fine not exceeding Rs. 25.

STATEMENT OF OBJECTS AND REASONS.

The incidence of infectious and epidemic diseases in Bengal is very high. Every year a large number of people fall victims to the ravages of these diseases, which, under proper control, has been greatly reduced in other countries. The control and prevention of such diseases in this province are an immediate necessity. Prompt supply of information about the existence of any such disease to the authorities in charge of sanitation concerned, particularly from medical men who are conversant with the causes and effect of diseases, should be ensured; and the said authorities should have more powers of control for enforcing notification, so that necessary preventive measures may be taken with the least possible delay. It is with these objects in view that the Bill has been introduced.

THE BENGAL CATTLE BILL, 1928.

A
BILL

It is hereby enacted as follows:—

Short title, local extent and commencement.

1. *(1)* This Act may be called the Bengal Cattle Act, 1928.

(2) It extends to the whole of Bengal.

(3) It shall come into force on such date as the Local Government may, by notification in the Local Government Gazette, direct.

Definitions.

2. In this Act, unless there is anything repugnant in the subject or context,—

(1) "*Brahmini* bull" means a bull dedicated to the public by a Hindu in a funeral or other religious or ceremonial occasion;

(2) "*Epizootic* disease" means diseases which come to one part of the country from another which affect a great many animals at the same time and behave as epidemic diseases do in human subjects;

(3) "*Khodai* bull" means a bull dedicated to the public by a Muhammadan in any religious, ceremonial or other occasion;

(4) "*Cattle*" means and includes a cow, heifer, bull, bullock, calf, he-buffalo, she-buffalo and buffalo-calf;

(5) "*Local authority*" means any authority legally entitled to the control or management of any Local or Municipal fund;

(6) "*Notification*" means a notification published in the Local Government Gazette.

Penalty for knowingly selling cattle having epizootic disease.

3. Whoever knowingly sells or keeps for sale or gives in pledge any cattle having epizootic disease shall be punished with fine which may extend to twenty-five rupees or with imprisonment for a term which may extend to one month or with both.

Penalty for killing or poisoning, etc., of *Brahmini* or *Khodai* bulls.

4. Whoever kills, poisons, maims, renders useless a *Brahmini* or *Khodai* bull or uses such animal for any purpose other than for breeding shall be punished with imprisonment for a term which may extend to *two years or with fine* which may extend to five hundred rupees or with both.

Maintenance of a minimum number of stud-bulls by a local authority.

5. *(1)* Every local authority shall maintain or cause to be maintained within its jurisdiction a minimum number of stud-bulls as may be prescribed by the Local Government and shall lend stud-bulls for service to the cattle of the locality under such terms and conditions as may be prescribed by such authority in the rules made under this Act.

(2) Notwithstanding anything contained in any other law it shall be lawful for such authority to allot a portion of its funds for the purpose of maintenance of such stud-bulls; and the local authority shall allot for such purpose at least one-fourth of all monies received in the area within its jurisdiction under the *Cattle Trespass Act,* 1871.

The Bengal Cattle Bill, 1928.

(Clauses 6—9.)

Power to local authority to take possession of *Brahmini* or *Khodai* bulls.

6. A local authority may, for the purpose of section 5, take possession of *Brahmini* or *Khodai* bulls. A register shall be maintained by a local authority of all bulls taken possession of by such authority under this section.

Grants to any person by local authority for the purchase and maintenance of stud-bulls.

7. It shall be lawful for a local authority to make suitable grant or grants to any person or persons from its funds for the purchase and maintenance of stud-bulls to be kept within the local limits of its jurisdiction and under such terms and conditions as may be prescribed by such authority from time to time by rules made under this Act.

Power to Local Government to fix the number of stud-bulls for a local authority.

8. The Local Government shall after consideration of the views of a local authority, by notification, fix the minimum number of stud-bulls to be maintained by such authority.

Power to make rules.

9. (*1*) A local authority may, with the previous sanction of the Local Government, make rules:—

(*a*) prescribing the terms and conditions for lending any stud-bull for breeding purposes to any persons or other local authorities;

(*b*) prescribing the terms and conditions of a grant under section 7;

(*c*) prescribing fees for services rendered by its stud-bulls and for the levy of such fees;

(*d*) for the proper upkeep, maintenance and periodical inspection and medical examination of stud-bulls; and

(*e*) generally for carrying out the purposes of this Act.

(*2*) Rules made under this section shall be posted up in a conspicuous position at the office of such local authority, and in such other public places as that local authority may direct.

STATEMENT OF OBJECTS AND REASONS.

The Bill intends in the main to make provision for the protection and maintenance of *Brahmini* and *Khodai* bulls by local authorities. The need of adequate and suitable stud-bulls is being keenly felt in the Province. The *Brahmini* and *Khodai* bulls which helped to serve the purpose of breeding have now become scarce, and the *res-nullius* judgments of the High Courts reported in I. L. R. Calcutta, Vol. 17, page 852, 11 Mad., 145, 10 All., 150, etc., go to prove that the destruction and diversion to other purposes of such bulls can be carried on with impunity. There is no special provision in the Local Self-Government Acts enjoining the maintenance of stud-bulls by local bodies especially for breeding purposes. Provision has been made in this Bill for rectifying the existing defects in Legislature concerning cattle and cattle-breeding.

(*b*) prescribing the form of receipts to be granted to payees; and

(*c*) prescribing the form in which the extent, situation, and boundaries, etc., of pasture lands are to be kept.

STATEMENT OF OBJECTS AND REASONS.

The Bill intends to secure the right of pasturage in lands formerly used as such but since encroached for cultivation or otherwise and also to fix the total quantity. The need for such a measure will be apparent on reading cattle census reports and settlement reports of various provinces which complain of the serious want of pasturage and encroachment of land for cultivation. Similarly, one of the causes ascribed for the deterioration of cattle of this country has been the gross inadequacy of pasture land which is also considered to be a circumstance adverse to cattle-breeding. The grazing grounds that exist in this country now are very poor, both in quality and in quantity. The proportion of grazing lands to total land area of India is the minimum of all the countries being 1:27, whereas the proportion in Japan is 1:6, in Germany 1:6, in New Zealand 1:3 and in Great Britain and Ireland 1:3. The great shortage of pasture land will also be apparent from a comparison of the number of acres that is available for grazing per head of cattle in different countries. It is only ·17 in Bengal and little more in other provinces in India, 1·6 in the United States of America, 1·35 in New Zealand and 1·44 in Germany.

Such sums as may from time to time be required for payment for the purpose of this Act shall be charged on and issued out of the provincial revenue.

STATEMENT OF OBJECTS AND REASONS.

It is admitted that the natural resources of Bengal afford large scope for the development of numerous industries for the economic improvement of the people. Many of the existing industries are languishing for want of financial and other support. There are not a few others which have to be first tentatively initiated and successfully worked before they can become popular with the investing public. It is necessary therefore to invest the Local Government with power to raise the necessary funds and therewith to undertake directly or render financial or other help in the initiation and improvement of industries. It is desirable also that the Local Government should have the assistance of an impartial and representative Board in administering such system of state aid to industries. The main lines on which such state aid can be given or new experiments conducted have also to be laid down.

The Bill is designed to meet all these requirements and thereby help in the industrial regeneration of Bengal.

Provided that nothing in this section shall affect any such payments made in accordance with an agreement entered into before the fifteenth day of March, 1927.

10. Notwithstanding anything contained in section 9, a landlord may receive a premium or other like sum in addition to the rent in respect of any premises which are let out on a lease for a period of not less than twenty years for the purposes of development either by building or rebuilding, if the Controller is satisfied that such premises are bona fide required for such purposes:

Provided that the rent payable for the premises during the continuance of this Act shall not exceed the standard rent.

11. (*1*) Notwithstanding anything contained in the Transfer of Property Act, 1882, the Presidency Small Cause Courts Act, 1882, or the Indian Contract Act, 1872, no order or decree for the recovery of possession of any premises shall be made so long as the tenant pays rent in conformity with the provision of this Act, and performs the conditions of the tenancy:

Provided that nothing in this sub-section shall apply where the tenant has done any act contrary to the provisions of clause (*m*), clause (*o*), or clause (*p*) of section 108 of the Transfer of Property Act, 1882, or has been guilty of conduct which is a nuisance or an annoyance to adjoining or neighbouring occupiers, or where the premises are bona fide and reasonably required by the landlord either for purposes of building or rebuilding, or for his own occupation, or for the occupation of any person

(Clauses 12, 13.)

for whose benefit the premises are held, or where the landlord can show any cause which may be deemed satisfactory by the Court:

Provided that, where the landlord seeks recovery of possession on the ground of building or rebuilding, he must obtain a certificate from the Controller to that effect which must be filed with the plaint of the suit for ejectment and without such a certificate from the Controller no such ejectment suit will be entertained.

(*2*) Where the landlord recovers possession on the ground that the premises are required for his own occupation or for the occupation of any person for whose benefit the premises are held, the tenant shall have a right of re-entry if the premises are let to another tenant within a year from the date of recovery of possession. The tenant shall also have a right of re-entry, if the premises required for building or rebuilding are not so built or rebuilt within one year from the date of recovery of possession.

(*3*) The fact that the period of the lease has expired, or that the interest of the landlord in the premises has been transferred, shall not of itself be deemed to be a satisfactory cause within the meaning of the proviso to sub-section (*1*), provided that the tenant is ready and willing to pay rent in conformity with the provisions of this Act.

(*4*) Where a landlord refuses to accept the rent referred to in sub-section (*1*) offered by a tenant, the tenant shall deposit it with the Controller within a fortnight of its becoming due.

(*5*) No tenant shall be entitled to the benefit of this Act in respect of any premises, unless within three months of the date of the commencement of this Act he has paid all arrears of rent due by him in respect of the said premises, and also unless he pays the rent due by him in conformity with the provisions of this Act within the time fixed in the contract with his landlord, or, in the absence of any such contract, by the fifteenth day of the month next following that for which the rent is payable: Provided, however, that where the tenant does not pay the rent regularly or where the tenant is a defaulter inspite of deposit of rent with Controller but upon being served with a summons for the recovery of possession tenders the rent in arrear or the balance of the standard rent recoverable by the landlord such tender will preclude the landlord from obtaining an order for the recovery of possession.

12. Where any order or decree of the kind mentioned in section 11, sub-section (*1*), has been made on or after the 1st day of April, 1927, but not executed before the date of the commencement of this Act, and if such order or decree could not have been made if this Act had been in operation at the date of the making of the order or of the passing of the decree, the Court may rescind or vary the order or the decree, as the case may be, in such manner as the Court may think fit, for the purpose of giving effect to this Act.

13. No distress warrant shall be issued under Chapter VIII of the Presidency Small Cause Courts Act, 1882, and no process under the Code of Civil Procedure, 1908, in execution of a decree passed exparte thereunder, shall be issued, either for the attachment of property, or for the arrest of any tenant, in connection with recovery of rent of any premises situated in any area to which this Act may apply, unless the person applying execution shall, when making his application, swear or affirm by affidavit or otherwise that none of the rent, in respect of which execution is applied for, is irrecoverable under this Act.

The Calcutta Rent Bill, 1928.

(Clauses 14, 15.)

14. (*1*) Where any sum has, after the date of the commencement of this Act, been paid on account of rent, being a sum which is by reason of the provisions of section 15 of this Act irrecoverable, such sum shall at any time within the continuance of this Act be recoverable by the tenant by whom it was paid from the landlord who received the payment, and may, without prejudice to any other method of recovery, be deducted by such tenant from any rent payable by him to such landlord.

(*2*) In this section the expression "landlord" includes, in the case of joint family property, the joint family of which the landlord, if deceased, was a member.

15. (*1*) The Controller shall, on application made to him by any landlord or tenant, grant a certificate certifying the standard rent of any premises leased or rented by such landlord or tenant, as the case may be.

(*2*) The Controller may, on application by any tenant or occupant of a room or rooms in a hotel, boarding house, or lodging house fix the rent or charge at such sum as having regard to the provisions of this Act and the circumstances of the case, including the cost of food, furniture, and service, and the rent or charge paid for such room or rooms on the first day of April, 1927, he deems just.

(*3*) In any of the following cases, the Controller may fix the standard rent at such amount as, having regard to the provisions of this Act and the circumstances of the case, he deems just:—

(*a*) where by reason of any premises having been let at one time as a whole and at another time in parts, or where a tenant has sublet the whole or a part of any premises let to him, or where for any reason any difficulty arises in giving effect to this Act;

(*b*) where any premises have been, or are let rent free, or at a nominal rent, or for some consideration in addition to rent;

(*c*) where the rent paid on the first day of April, 1927, or, where the premises were not let on that date, the rent at which the premises were last let before that date was low or did not represent the fair rent; or

(*d*) where there has been a change in the condition of any premises or a change in the condition of the neighbourhood or an increase in the municipal rates, taxes or cesses in respect of any premises since the 1st day of April, 1927, or during the continuance of this Act:

Provided that under clause (*d*) the Controller shall not increase the rent by more than ten per cent. per annum on the amount expended on the improvement or structural alteration of the premises as provided for in section 5.

(*4*) Before exercising any of the powers conferred on him by this Act, the Controller shall give notice of his intention to the landlord and tenant, if any, and shall duly consider any application received by him from any person interested, within such period as shall be specified in the notice.

(*5*) All orders of the Controller passed under this Act shall be in writing, and a certified copy thereof shall be affixed to some conspicuous part of the premises to which it relates, or to some conspicuous object near such premises, and a certified copy shall also be delivered to the landlord, or his authorised agent, in such manner as the Local Government may by rule prescribe.

The Calcutta Rent Bill, 1928.

(Clauses 16—19.)

(*6*) Any person affected by any order of the Controller shall be entitled to be furnished with a copy thereof, duly certified by the Controller to be a correct copy, on payment of such sum as the Local Government may prescribe. Such copy shall be admissible in evidence in any Court of law to prove the order of the Controller.

16. For the purpose of any inquiries under this Act, the Controller, or any person duly authorised by the Controller, in writing either generally or specially in this behalf, may enter any building or land with or without any assistants between the hours of 9 a.m. and 6 p.m.:

Provided that no building shall be so entered, without the consent of the occupier, unless twenty-four hours' previous notice in writing has been given.

17. (*1*) For the purposes of any inquiry under this Act, the Controller may by written order require any person—

(*a*) to furnish him with particulars, in such form, within such time, and at such place, as may be specified in the order, as to the rent at which, and the manner in which, any premises were let in the year 1922 or subsequently, and as to any other matter relevant to the inquiry;

(*b*) to produce for his inspection such accounts, rent receipts, books or other documents relevant to the inquiry, at such time and at such place, as may be specified in the order.

(*2*) The Controller shall, subject to any rules made under this Act, and in so far as such powers are necessary for carrying out the provisions of this Act, have power to summon and enforce the attendance of witnesses, and to compel the production of documents by the same means and, so far as may be, in the same manner as is provided in the case of a Court by the Code of Civil Procedure, 1908.

18. If the decision of the Controller fixing the standard rent for any premises is questioned, either the landlord, or the tenant may, in respect of premises in Calcutta, appeal in respect of such order to the President of the Tribunal appointed under section 72 of the Calcutta Improvement Act, 1911, and, in respect of premises outside Calcutta, to the principal Civil Court of original jurisdiction in the district. A certified copy of the order of the Controller shall be filed with the memorandum of appeal. The memorandum of appeal shall bear a court-fee stamp of eight annas. Any such memorandum shall be filed within thirty days from the date of the order passed by the Controller. The time taken in obtaining a certified copy of the order of the Controller shall be excluded in computing the period in which the memorandum must be filed. The decision of the President of the Tribunal, or of such other Court as aforesaid, shall be final.

19. (*1*) Whoever knowingly receives, whether directly or indirectly, on account of the rent of any premises any sum in excess of the standard rent or any fine, premium, or any other like sum in addition to the standard rent, except as provided in section 10, shall, on the complaint of the party aggrieved, be liable, on the first occasion, to a fine which may extend to five hundred rupees, and on a second or subsequent occasion, in regard to the same, or any other premises, to a fine which may extend to one thousand rupees, to be imposed, after summary inquiry, by the President of the Tribunal, or the principal Civil Court, as the case may be,

The Calcutta Rent Bill, 1928.

(Clauses 20—25.)

(2) A person shall be deemed to receive a sum in excess of the standard rent, if he receives any consideration representing a money value in excess of such standard rent.

20. Whoever, in any case in which an order or decree for the recovery of any premises is prohibited under section 11, without the previous written consent of the Controller, or save for the purpose of effecting repairs or of complying with any municipal requisition, wilfully disturbs any easement annexed to any premises, or removes, destroys, or renders unserviceable, anything provided for permanent use therewith, or discontinues any supply or service comprised in such rent, shall, on the complaint of the party aggrieved, be liable, on the first occasion, to a fine which may extend to five hundred rupees, and on a second or subsequent occasion, in regard to the same, or any other premises, to a fine which may extend to one thousand rupees to be imposed, after summary inquiry, by the President of the Tribunal or the principal Civil Court, as the case may be.

21. The fine imposed under section 19, or section 20, shall be levied by the Controller by the distraint and sale of a sufficient portion of the moveable property of the person fined in accordance with rules prescribed under section 23.

22. No complaint under this Act shall be brought against any person without the previous sanction of the Controller, or after the expiration of three months from the date of the commission of the acts referred to in sections 19 and 20.

23. (1) The Local Government may, after previous publication, make rules to carry out the purposes of this Act.

(2) In particular, and without prejudice to the generality of the foregoing power, the Local Government may make rules—

(a) prescribing the method of publication of a notification under section 1, sub-section (3);

(b) prescribing the manner of delivery of a certified copy of an order made by the Controller under this Act;

(c) regulating the procedure to be followed in inquiries by the Controller, the President of the Tribunal and the principal Civil Court of original jurisdiction in the district, under this Act;

(d) prescribing the manner of giving notice to the landlord in case of a deposit of rent under section 11, sub-section (4), and the method of withdrawal of the rent by the landlord;

(e) prescribing the method of distraint and sale of moveable property of landlords under section 21;

(f) prescribing a scale of costs and fees, and providing for the charging or remitting of costs and fees.

24. In dealing with the appeals from the decisions of the Controller, the President of the Tribunal, or the principal Civil Court shall follow, as nearly as may be, the procedure laid down in the Code of Civil Procedure, 1908, for the hearing of appeals and the President of the Tribunal or the principal Civil Court shall have all the powers of an appellate court as laid down in the Code of Civil Procedure, 1908, while dealing with such appeals.

25. During the continuance of this Act, the Corporation of Calcutta, or any other local authority shall not raise its assessment of any premises above the standard rent on the ground of the increase of rent or value.

STATEMENT OF OBJECTS AND REASONS.

With the discontinuance of the Calcutta Rent Act, 1920, the condition of tenants in Calcutta has become worse than before, more particularly with regard to (1) fixity of rent and (2) security of tenancy. Although landlords are entitled to a legitimate increase in the return upon their investment in house property, the disparity of position as between landlord and tenant very often leads to an abuse of legal rights, and tenants are left without any protection against the rapacious and unreasonable demands of landlords. Monthly tenants require some measure of statutory help against uncertain and precarious tenancy as also against extortionate demands for increase of rent. The object of this Bill is to remedy the aforesaid and other evils attending tenancy conditions in the City.

RESOLUTION ON THE REPORTS ON THE WORKING OF MUNICIPALITIES IN THE BENGAL PRESIDENCY (EXCEPT CALCUTTA) DURING 1927-28.

GOVERNMENT OF BENGAL.

Local Self-Government Department.

CALCUTTA, THE 19TH FEBRUARY 1929.

RESOLUTION No. 641M.

Minister-in-charge: The Hon'ble Raja Bhupendra Narayan Sinha Bahadur, of Nashipur.

READ—

Reports from the Commissioners of Divisions on the working of municipalities in the Bengal Presidency (except Calcutta) during 1927-28.

Number of municipalities.—A new municipality was created at Gouripur in the district of Mymensingh; the total number of municipalities in Bengal thus became 116. As, however, the new municipality was not empowered to levy taxes during the year the statements of income and expenditure appended deal with statistics for 115 municipalities

The boundaries of the Kishoreganj Municipality were revised by the exclusion of areas which were more rural than urban. There were also slight alterations in the boundaries of two other municipalities, viz., Krishnagar and Basirhat.

2. **Elections.**—The elective system was in force in all but three municipalities, viz., Bhatpara, Garulia and Titagarh. General elections were held in 59 municipalities. In most municipalities the elections were hotly contested In the small town of Ramjibanpur 90 per cent. of the voters in one ward attended the polling station and in Burdwan the contest was so keen in one ward that out of 277 voters only 18 did not turn out to vote. These contests do not necessarily indicate a sense of civic responsibility; in too many instances far greater keenness is shown in securing the honour of being a municipal commissioner than in performing the duties attached to that office. Civil suits continue to hamper municipal administration. In two wards of the South Suburban and in one ward of the Ranaghat Municipality elections could not be held owing to injunctions issued by the civil court. Civil suits were also instituted or were pending during the year in four other municipalities, viz., Champdany, Khulna, Chittagong and Dinajpur. The number of such suits and the time taken to dispose of them are strong arguments for the establishment of special tribunals with powers of final decision of election disputes The Bengal Municipal Bill, which was thrown out by the Legislative Council in 1925, contains provisions for setting up such tribunals. The Minister for Local Self-Government recently consulted the Local Self-Government Standing Committee about re introduction of the Bill. It has been decided to re-introduce it if there is any chance of the Bill becoming law during the lifetime of the present Legislative Council.

The number of commissioners of the Jalpaiguri Municipality was increased from 15 to 18

3 **Meetings.**—Out of 2,447 meetings held during the year, 151 proved abortive for want of a quorum and 199 were adjourned, against 152 and 223, respectively, in the previous year.

Attendance was poorest in Joynagar, Hooghly-Chinsura and Baduria, where 8 out of 13, 36 out of 69 and 13 out of 27 meetings, respectively, proved abortive. At Narayanganj nearly half, and at Budge Budge and Baruipur more than one third, of the meetings held were unsuccessful Hooghly-Chinsura held the largest number of meetings, viz., 69; then comes Bansberia with 49, Comilla with 43 and Kalna with 41. On the other hand, the commissioners of Dainhat, Ramjibanpur, Baidyabati, Kotrung, Gobardanga, Debhatta and Murshidabad failed to meet once a month. Mr Cook, Commissioner of the Burdwan Division, suggests two possible explanations for this failure "Either that there is almost complete lack of interest in things municipal or that one faction is so strong that the minority party does not think it worth while attending."

The attendance of commissioners in Garulia was cent. per cent., next come Kanchrapara and Champdany with more than 80 per cent. while it was very poor at Baduria, viz., 16·6 per cent.

4. **Number of rate-payers.**—The total number of rate-payers rose from 324,917 to 326,172; the percentage to total population being 16 against 16·11 in the

previous year. The increase was shared by all the divisions except Burdwan where the number declined from 107,651 to 106,485. The Commissioner of the Division finds no satisfactory explanation for this but observes that revision of the voting list is said sometimes to be fraught with danger to the party not in power and that this may be a factor in the fall. As in the previous year, the percentage was highest in Kumarkhali (40·7) and lowest in Titagarh (3·2)—a mill town with a large cooly population. There was an appreciable decrease in the number of rate-payers in Kishoreganj and Rajbari due to the exclusion of certain areas from the municipal limits. Other towns in which rates are paid by less than one-tenth of the population are the hill stations of Darjeeling and Kurseong and the several riparian mill municipalities, such as Naihati, Bhatpara, Garulia, Kamarhati, Champdany and Narayanganj, which are towns with a large floating population of factory operatives who pay no rates themselves.

5. **Assessment and taxation.**—The average incidence of taxation for the Province as a whole was Rs. 3-4 against Rs. 3-3-9. It was highest in the hill municipality of Darjeeling (Rs. 10-12-3). Next come Kurseong (Rs. 9-9-7), Howrah (Rs. 8-13-6) and Chittagong (Rs. 5-6-2). In 10 other towns, viz., Burdwan, Hooghly-Chinsura, Uttarpara, South Dum-Dum, Krishnagar, Berhampore, Dacca, Narayanganj, Mymensingh and Bogra, the ratio was above Rs. 4. The Commissioner of the Burdwan Division observes in this connection that it is doubtful if the rate-payers of Hooghly-Chinsura and Uttarpara got value for their money. No explanation has been furnished for the comparatively high incidence in the town of Bogra. It may be due to the revision of assessment on Government holdings, which has increased the municipal income by more than Rs. 2,000 per annum. On the other hand, the incidence was as low as 7 annas in Bazitpur and Debhatta and in 19 other municipalities it ranged from 8 annas to one rupee. Generally speaking, the incidence of municipal taxation in the Presidency is extremely low, although it does show a slow upward tendency, the figures being Rs. 3-1-5 in the year 1925-26, Rs. 3-3-9 in 1926-27 and Rs. 3-4 during the year under review.

A general or partial revision of assessment was made in 89 municipalities, the net result being an increase of about Rs. 2½ lakhs in the municipal revenue of the Presidency as a whole. The largest increase, viz., Rs. 35,049, was obtained in Rangpur by the revision of assessment of the latrine fees alone. Then come Tollygunge with an increase of Rs. 18,360, Jalpaiguri Rs. 18,061 and Raniganj Rs. 13,736. These figures, however, represent gross increases which were likely to be reduced when objections came to be heard. Baranagore has added Rs. 16,768 to its income by the imposition of a lighting rate and Bankura Rs. 8,364 by the substitution of the rate on holdings for the tax on persons, with effect from 1st April 1928. The Assessment Committee having considerably increased the annual valuation of holdings in Uttarpara, the municipal commissioners decided to reduce the percentage at which rates are levied, the net result being a decrease of Rs. 1,353 in the annual income from water rate and an increase of Rs. 4,821 from other rates. Mr. Cook makes the following remarks in connection with the assessment of municipal taxes:—

"That the assessments give a genuine estimate of the real values is doubtful, as the assessments are made usually by the commissioners themselves and it is not expected that they should have the requisite professional knowledge needed for a proper valuation, even if we eliminate the unconscious bias which must operate when a commissioner's continued further existence hangs in the balance."

6. **Collections.**—The total collections for the Presidency as a whole rose from Rs. 62⅔ lakhs to nearly Rs. 63⅔ lakhs, but the percentage of collections on the current demand fell from 95·6 to 95·5, the lowest ratio being returned by Raniganj. The low percentage in Raniganj is attributed to delay in the disposal of objections against the general revision which were kept pending far too long and also to the decrease in the number of carriages and carts in the town. In 10 municipalities the collections were over 99 per cent. On the other hand, in 13 municipalities the ratio was under 85 per cent., falling as low as 54·4 per cent. in Rangpur. The poor collection in Rangpur is reported to be due mainly to delay in the disposal of a large number of objections made against the

assessment. The comparatively low percentage of collection in Tollygunge (80·5) is attributed to non-payment of taxes by some big rate-payers against whom civil suits have been instituted.

As usual, Nalchiti and Garulia collected cent. per cent. of the demand without any remission. Titagarh and Champdany also collected practically their whole demand, granting one-tenth per cent. remission and leaving no outstanding balance. Bhadreswar had an outstanding balance of only Rs. 29 at the end of the year. In these towns, however, the bulk of the taxes is paid by the mills leaving only a small percentage to be collected in the ordinary way.

Remissions of rates both arrear and current for the province as a whole amounted to Rs. 2,61,716 and represent nearly 4 per cent. of the current demand. Rajbari remitted more than one-fourth and Debhatta nearly one-fourth of their current demand, Baraset and Jainagar more than 20 per cent. while three others, viz., Rajpur, Satkhira and Rangpur, remitted more than 15 per cent. Large remissions are the logical sequence of careless and illegal assessment, inefficient collection and reluctance to resort to the coercive procedure provided in the Bengal Municipal Act. Grant of remissions must be considered an unsatisfactory method of disposing of large outstanding balances.

The following are some of the most glaring instances of irregular remissions granted by the municipal commissioners which were noticed by the Examiner of Local Accounts in his report on the working of the Local Audit Department for the year 1926-27:—

(*i*) Taxes amounting to Rs. 1,045 were remitted by the Barisal Municipality as irrecoverable, on the report of a municipal commissioner that most of the persons concerned could not be traced.

(*ii*) The Perojpur Municipality reduced the tax of a municipal commissioner, although he had a large income within the municipality, from Rs. 52 to Rs. 42 in consideration of his services to the municipality.

(*iii*) A certain rate-payer of the Baidyabati Municipality prayed for some reduction of his taxes but the commissioners out of generosity granted him entire exemption.

(*iv*) In Basirhat and Barisal taxes due from persons holding appointments under Government or Local Funds were remitted as irrecoverable when they were transferred from the station.

In the Presidency as a whole the balance outstanding at the close of the year amounted to more than Rs. 15¾ lakhs. The Minister observes with regret that the accumulation of such heavy arrears reflects credit neither upon municipal commissioners nor upon their executive. Howrah shows the largest balance outstanding, viz., Rs. 5,63,120, for which no explanation has been given. Next comes Dacca with an outstanding balance of Rs. 2,34,273, which, however, was the outcome of litigation in regard to the assessment. A civil suit instituted to challenge the validity of the re-assessment at Dacca was decided in favour of the municipality but an appeal has been preferred against this decision in the Privy Council. In the meantime heavy arrears of taxes have accrued and it will be very difficult for the poorer rate-payers to pay up fully such large arrears. Other municipalities which had balances outstanding of more than Rs. 25,000 were Mymensingh, Barisal, Tollygunge, Santipur, South Suburban, Hooghly-Chinsura, Bally and Bankura. The reason for the large amount outstanding in Tollygunge has already been given. The balance in Santipur was due to the reluctance of the old Board to take coercive measures, some of the commissioners, including the Chairman himself, being among the worst defaulters. South Suburban attributes the large arrears to default on the part of rice mill owners who closed their mills. The Commissioner of the Burdwan Division makes the following observations:—

"Generally speaking, the heavy arrears are always due to laxity on the part of the municipal executive in taking coercive steps to realise taxes in accordance with the provisions of the Act and the usual cause for the laxity is fear of the Chairman and Vice-Chairman of losing popularity or their seats at the next election. The size of the arrears will probably vary with the nearness of the next election. The existing Boards are not responsible for the accrual of all the arrears. Some have inherited a heavy load, such as in Hooghly-Chinsura and in Bankura. I have no hesitation, however, in saying that in not a single instance, not even in Bally, has the municipality done all it might have done to reduce the arrears. Outstandings of some size more than 2 years old, due

from men known to be able to pay, are allowed to remain uncovered by suit, ' for amicable realisation '. The likelihood of a man being willing to ' pay amicably ' 2 or 3 years' dues, when he has not paid one year's, either through inability, or cunning, seems so remote that one begins to doubt the bona fides of the plea and to look for some other reason."

Unwillingness to adopt stringent measures is no doubt largely responsible for this heavy accumulation but there are other factors also. There is no such system, as there is in Madras and in Bihar and Orissa, for recovering from persons responsible amounts that have been lost through their negligence.

7. **Income and expenditure.**—The total receipts, including opening balance, amounted to Rs. 1,12,10,926 against Rs. 1,12,17,720 in the year 1926-27. The total disbursements were Rs. 96,37,905 as against Rs. 96,50,331.

8. **Closing balance.**—The total balance at the close of the year rose from Rs. 15,67,389 to Rs. 15,73,021. The largest balances were held, as in the previous year, by Dacca (Rs. 2,78,584), Howrah (Rs. 2,66,859) and Darjeeling (Rs. 1,01,413); other municipalities which had unduly large balances were Naihati (Rs. 68,216), Bhatpara (Rs. 62,226), South Dum-Dum (Rs. 55,350) and Narayanganj (Rs. 52,568). The large balance in Darjeeling is attributed to restriction of expenditure and postponement of certain undertakings. The greater part of the balance in Bhatpara represents funds for the sewerage, water-supply and town improvement scheme while in South Dum-Dum the large accumulation is described as being meant for the improvement of roads, primary education, dispensary buildings and improvement of water-supply. In other cases no explanations have been furnished.

On the other hand, a number of municipalities failed to keep adequate working balances and in several towns balances were insufficient to meet outstanding liabilities. In Mymensingh, Barisal, English-Bazar, Dinajpur and Midnapore, the outstanding liabilities largely exceeded the closing balances. The worst offenders in this respect were Baruipore and Satkhira, which had outstanding liabilities of Rs. 3,700 and Rs. 3,526, respectively, against actual balances of Rs. 78 and Rs. 74 only. Sirajganj, Jiaganj-Azimganj and Bhola had also outstanding liabilities of Rs. 15,020, Rs. 4,673 and Rs. 3,281 against cash balances of Rs. 615, Rs. 846 and Rs. 540, respectively. Hooghly-Chinsura and Santipur closed the year with sums of Rs. 7,012 and Rs. 9,646 against liabilities exceeding Rs. 49,000 and Rs. 23,000.

9. **Education.**—The amount spent on education, including the Government grant of Rs. 1,11,591, was Rs. 4,31,641 as against Rs. 4,46,699 in the preceding year. The expenditure on primary education also showed a corresponding fall of Rs. 5,000. The decrease was most marked in Darjeeling and Asansol and was due to the fact that in 1926-27 extraordinary capital expenditure was incurred in both places. An income of Rs. 5,920 was derived from the education cess which is at present levied by the municipalities of Rangpur and Berhampore. Twelve municipalities or roughly one in ten failed to spend on primary education 3·2 per cent. of their ordinary income, the percentage which is taken to represent the amount required for the education of half the number of boys of primary school-going age. On the other hand, the ratio was over 5 per cent. in 48 municipalities and over 10 per cent. in 19 municipalities. In Burdwan two new primary schools of the Biss type were opened and in Kalna the construction of an additional room in the municipal primary school was undertaken. In Berhampore the first free primary school was started at Kasimbazar; the construction of a second municipal school at Saidabad was in progress. Barisal paid Rs. 1,920 towards the cost of establishment of a free primary school and Nalchiti maintained a primary *patshala* on the lines of Mr. Biss's scheme at a cost of Rs. 440. Free and compulsory primary education for boys was introduced in Chittagong with effect from January 1928, and the municipality provided 34 schools for boys and 31 for girls. It is remarkable that out of 2,500 boys and 1,400 girls between the ages of 6 and 10 in the town no less than 2,120 boys and 1,052 girls are at school. The municipality has also demonstrated that the cost of the scheme is not prohibitive as its own contribution is not likely to exceed Rs. 11,000 per annum. This is an excellent example but it has been little

followed. It appears that too many of the municipalities—especially in the Burdwan division—spend too much money on secondary schools while neglecting primary education. The Minister is constrained to repeat the advice given previously that the municipal commissioners should not devote their funds to secondary education when this involves neglect of other important services including primary teaching.

10. **Water-supply.**—The Tollygunge and South Suburban municipalities continued to get filtered water from the Calcutta mains and negotiations were in progress with the Calcutta Corporation for a similar supply to the Baranagore Municipality. Seven municipalities in the Hooghly riparian area got their supply from the local mill filters. Excluding these there are 28 municipalities which have their own water-works. Only five of these systems date from before 1900. The number of persons supplied with filtered water was 971,900, the total quantity supplied averaging 11 million gallons per day.

In Naihati pipe water was, as before, supplied by the Gouripur and Nuddea Companies. The larger scheme for a comprehensive supply to remote corners of the town was completed during the year. The Khulna water-works extensions are nearing completion. Arrangements were made for the free supply of water to the Halisahar Municipality from the local jute mills. A new reservoir with a capacity of 150,000 gallons of water was erected at Raniganj and an efficient supply of water is now being maintained throughout the town. No progress could be made with the scheme for the extension of water-works on the east side of the river Lakshya in Narayanganj as the contractors failed to sink the tube-wells. The tube-well of the Lytton water-works at Faridpur was sunk and proved successful. The excavation of the storage tank in connection with the new Patuakhali water-works was completed. The machinery of the Comilla water-works having broken down early in the year the municipal commissioners first hired a portable engine for pumping and supplied the town with water from the river Gumti, and then decided to sink a tube-well, a work which is in progress. The sinking of a tube-well in connection with the Brahmanbaria water-works scheme was completed during the year. The scheme for the supply of water from the Dakatia river to the northern section of the Chandpur town has recently been administratively approved by Government at an estimated cost of Rs. 1,53,000 while the Noakhali water-works scheme has also been approved. Several municipalities in the Rajshahi Division, viz., Rajshahi, English Bazar and Pabna have inaugurated water-works schemes but none has yet materialised. It may finally be said that nowadays the inhabitants of no considerable town in Bengal are content to do without a system of filtered water supply through pipes. The general willingness to pay water rate in return for the service shows that the public health conscience is awake.

Tube-wells having proved a successful and also a cheap source of supply in certain soils, a large number of municipalities, especially in the Presidency Division, decided upon obtaining water through such wells. Mr. Sachse, Commissioner of the Presidency Division observes in this connection:—

"These wells have attained considerable popularity of late and an impression is gaining ground that these wells may supply a solution of the water-supply problem in many places. The difficulty is that the pumps are apt to get out of order and that there is no guarantee when they will cease to be useful."

The Minister holds the view that when tube-wells can be successfully sunk and kept in order they are at once an inexpensive and a satisfactory source of water-supply. He observes, however, that the life of a small tube-well is apt to be short and he agrees with Mr. Sachse that the difficulty of keeping the pumps in repairs is one that has to be faced. In considering schemes for the supply of water from tube-wells municipal commissioners will therefore be well advised if they make specific provision for renewals and for periodical repairs: the latter object may be achieved by employing a whole-time mistri to look after the mechanism when the number of wells is sufficient to justify such a post.

11. **Conservancy.**—Expenditure under this head amounted to Rs. 22,70,714, showing an increase of about Rs. 70,000. Motor lorries either for road watering or for scavenging purposes were purchased by several

municipalities and this partly contributed to the increase. The largest increase was in Dacca and was due to more being spent on road cleaning and road watering. As usual, the cost of cleansing private privies was nearly Rs. 5½ lakhs in excess of the receipts from latrine fees, which rose by about Rs. 35,000 only. The deficit was, as usual, met from the general fund at the sacrifice of such vital services as sanitation, education and medical relief. The desirability of making the special funds self-supporting by raising the rates to the maximum limit, where they have not yet reached that level, or by reducing expenditure was impressed upon the municipalities in the Presidency Division by the Divisional Commissioner when passing their budgets. The Minister trusts that this course will be followed by other Commissioners of Divisions.

Scavengers are as difficult as ever to recruit. Mr. Durno, Magistrate of Nadia, remarks that even Chakdah's one and only sweeper (mentioned in last year's Resolution) has run away.

The problem of recruiting scavengers and of paying wages that will keep them contented is likely to grow still more acute in the future and it is perhaps only a question of time before municipal commissioners in the larger towns at least are driven to the solution of installing underground sewerage systems.

As usual the conservancy departments were in charge of the Health Officers and Sanitary Inspectors where there are such officers. The total cost on account of these officers amounted to Rs. 1,85,981 against Rs. 1,80,685 in the preceding year.

12. **Drainage.**—The total expenditure under the head fell from Rs. 5,96,231 to Rs. 3,20,974. The decrease is due to the fact that in 1926-27 there was a capital expenditure of Rs. 2,56,055 on the Dacca sewerage scheme. A scheme for the drainage of a part of the Suri Municipality was administratively approved at a cost of Rs. 34,100 towards which Government will make a grant of Rs. 10,000. The drainage system of Bally is extremely defective. The Calcutta Chord Railway authorities have agreed to construct drains along the alignments of their approach lines to the Bally bridge with which the municipality and the householders will be allowed to connect their drains. This is expected to remove the existing trouble in Ward No. I. A portion of the main outfall drain was taken up by the Bally Jute Mill, Ltd., and the municipality had also in hand a project for a new alignment of this drain for which acquisition proceedings were started.

The Titagarh sewerage scheme was completed and is now in working order. The Bhatpara scheme has recently been sanctioned by Government. A scheme for a sewerage system in Krishnagar had to be kept in abeyance for want of funds. A sum of Rs. 36,386 was spent by the Dacca Municipality on its sewerage scheme. The unspent balance of the Government grant for the scheme was Rs. 24,479 at the close of the year. Chittagong spent Rs. 4,453 on the maintenance, extension and improvement of drains. Minor drainage works were carried out in several other towns. The septic tanks at Kurseong are reported to have worked satisfactorily.

13. **Lighting.**—The expenditure under this head amounted to Rs. 6,03,502 as against Rs. 5,73,865 and represented 7·2 per cent. of the total ordinary expenditure. The increase is mainly noticeable in Howrah (no explanation given) and in Baranagore (due to the introduction of electric lighting). Other towns in the Province which are lighted with electricity are Dacca, Darjeeling, Howrah, Hooghly-Chinsura, Uttarpara, South Dum Dum, South Suburban, Bally and Burdwan. Only the first two municipalities had electric lighting before 1900, the Howrah system dates from 1913 and all the others have been installed since 1923. Some of the main roads and lanes in Chittagong were provided with electric lights during the year. There is a project for the electrification of the town of Berhampore and the commissioners have agreed to have street lights and also to run the waterworks by electricity.

In Murshidabad and some other places the municipal commissioners have installed day-lights at road junctions; this is an example that other municipalities might follow with advantage.

14. **Public health.**—As in the previous year, most of the municipalities took steps to improve sanitation by filling up, clearing or disinfecting insanitary tanks, ditches and dobas and by removing undergrowth and obnoxious vegetation. Jessore carried out jungle clearing on a comprehensive scale with

the help of convict labour while the small municipality of Maheshpur cleared the compounds of the poorer classes with the help of the anti-malarial society and school students. The settlement operations were responsible for a good deal of clearance of jungle in North Dum Dum. The District Magistrate of Hooghly observes that the standard of clearance is in most cases very low, and this is probably true of municipalities in other districts as well. In many municipalities notices were issued to owners of insanitary tanks, dobas and rank vegetation and prosecutions had to be started where the requisitions were not complied with. The Commissioner of the Burdwan Division, however, remarks "what happens after the 'notices' and the results of 'prosecutions' we are not told. It would be an exceedingly interesting matter for detailed enquiry to find out what had really been done. The same formula appears every year with such persistence that in time one accepts it as a formula, especially when walking round any of the municipalities you come on the same 'old offenders'."

Preventive measures were taken by a large number of municipalities to check the spread of epidemics. Medicines and disinfectants were freely distributed and special doctors were appointed where necessary. There were outbreaks of cholera and of small-pox in several municipalities. People were warned against using the water of suspected tanks, wells and rivers and were advised to use boiled water. Anti-cholera inoculation and vaccination were pushed on vigorously and all possible steps were taken to cope with the epidemics. In certain municipalities affected houses were disinfected, suspected tanks, etc., were sterilized, markets were regularly inspected by Sanitary Officers, and unwholesome food was seized and destroyed.

Free vaccination was provided by many municipalities and effective measures were taken to secure the vaccination and revaccination of children, permanent vaccinators were maintained by certain municipalities while temporary ones were appointed by some others. A system of free home vaccination is reported to have been working with good results in Naihati and Kamarhati. Two female vaccinators were appointed by the Dacca Municipality.

Malaria and kala-azar were prevalent in some municipalities and preventive and curative measures were taken. It is reported that some of the anti-malarial and kala-azar societies did useful work in co-operation with the municipalities in combating these diseases. The Birnagar Palli Mandali made steady and systematic attempts to drive out malaria by mass administration of quinine and control of carrier species of anopheline mosquitoes. Anti-malarial societies were started in several municipalities while some opened kala-azar centres and distributed quinine and cinchona free. Dacca contributed as usual Rs. 1,200 to the Dacca Maternity and Child Welfare Trust and Chittagong Rs. 1,000 to the local maternity fund which is controlled by a committee of which the Civil Surgeon is the Secretary. A midwife is maintained from this fund who attends delivery cases amongst the poor people free of charge. A midwife was also appointed by the Nawabganj Municipality. Both Chittagong and Krishnagar have training classes for dais for which they receive grants from Government. Nine indigenous dais were trained at Chittagong.

Increasing interest was displayed by some municipalities in examining food-stuffs offered for sale to the public. In Dacca, for instance, 405 samples of food-stuffs were sent to the Public Health Laboratory for analysis, 31·3 per cent. of which were found to be adulterated. About 443 maunds of unwholesome food-stuffs of different kinds were destroyed. Several municipalities started a number of prosecutions under the Bengal Food Adulteration Act, many of which ended in conviction. The Chairman of the Dacca Municipality, however, complains of the inadequacy of the fines imposed by the criminal courts in these cases.

Attempts made to get water-hyacinth removed, by serving notices on the occupiers of holdings or otherwise, were usually successful.

15. **Public Works.**—The total expenditure under the head rose from Rs. 11,84,052 to Rs. 12,40,246. The increase was noticeable under the sub-head "Roads;" Dacca alone was responsible for an increase of Rs. 33,000 which was due to thorough repairs of several roads which could not be undertaken in previous years for lack of money. There was also an increase of Rs. 20,000 in Chittagong due to the metalling of some important roads and

to the purchase of a road-watering motor car which is also to be used as a fire engine. A trial was made with the motor car at an actual fire and the engine succeeded in extinguishing it within half an hour. The percentage of outlay on public works to total expenditure varied from ·5 in the small town of Sonamukhi to 41·3 in South Suburban. Maintenance of roads is a heavy item in most places. The total length of metalled roads maintained by municipalities was 1,376 miles and that of unmetalled roads 1,637 miles. The mileage of both metalled and unmetalled roads is largest in Howrah, viz., 145 and 88 miles, respectively. Krishnagar has 77 miles of unmetalled roads.

Complaints continue to be received regarding the damage done to municipal roads by motor vehicles. The considerations which led to the postponement of legislation for the taxation of power-driven vehicles were set forth in paragraph 14 of last year's resolution, in which reference was also made to the possibility that the Road Development Committee appointed by the Government of India might recommend some special taxation on motors for expenditure on road development in India. The Committee submitted its report to the Government of India recently making comprehensive recommendations about methods by which schemes of road improvement may be financed out of the proceeds of new central and provincial taxes. Local Governments have been asked to express their views on these recommendations and the Government of Bengal have them under consideration.

16. **Loans.**—Loans amounting to Rs. 27,500 were granted from provincial revenues to the municipalities of Raniganj (Rs. 17,500), and Dinajpur (Rs. 10,000). Altogether 36 municipalities were in debt to Government, their total liabilities amounting to nearly Rs. 28¾ lakhs. Five municipalities, viz., Garulia, Barrackpore, Barasat, Basirhat and Sirajganj liquidated their debts in full.

17. **Audit of accounts and embezzlements.**—The accounts of all but eight municipalities were audited by the Examiner of Local Accounts and his staff. In the absence of any system of bringing home to municipal commissioners their personal responsibility for improper payments or for revenue sacrificed through their negligence, the control exercised by Government through audit is not very effective. The result is that defects and irregularities are seldom remedied and the same errors are seen over and over again. Repetition of irregularities is not the only fault of the present system. Under existing orders audit notes should be returned to the Examiner of Local Accounts within three months of their receipt with the Chairman's explanations but this time limit is seldom observed.

Embezzlements or misappropriations of money occurred in Baranagore, Jiaganj-Azimganj, Sirajganj, Dinajpur and Rajpur. In Baranagore the tax collector and the sarkar and in Jiaganj-Azimganj the tax daroga and cashier were prosecuted for misappropriating a portion of the collections made by them. These cases are still subjudice. The tax daroga of the Sirajganj Municipality is reported to have absconded after defalcating municipal money. The matter is in the hands of the Police. A small amount was misappropriated by the Registration clerk at Rajpur. The amount was recovered and the clerk was dismissed. In the Dinajpur case the culprit was the Head Clerk and Accountant; the money misappropriated by him was recovered and his services were dispensed with. In view of his old age and length of service the municipal commissioners, however, decided not to prosecute him. It is reported that the Chairman of one municipality in the Burdwan Division opposed a prosecution recommended by the District Magistrate. Municipal commissioners should remember that they are the custodians of the rate-payers' money and no personal considerations should deter them from placing offenders on trial leaving it to the court to take extenuating circumstances, if any, into view.

18. **General remarks.**—*Burdwan Division.*—The most noticeable achievements of the Burdwan Municipality were the completion of the municipal market and the construction of a rest-house in the Muhammadan burial ground. A new steam-roller and a new motor car serving the double purpose of road watering and fire extinction were also purchased. Katwa has made considerable progress in extricating its finances from the hopeless condition into which they had fallen 2 or 3 years ago. The drainage and

water-supply of the town of Dainhat are as bad as ever. The District Magistrate remarks that it might be an advantage if this municipality were converted into a union board. The drains in Kalna are particularly obnoxious while those in Raniganj are regularly flushed. In the latter place the Bengal Coal Company is constructing a new market on up-to-date lines, which should materially add to the amenities of the town. In Asansol expenditure on conservancy had gone up to more than 42 per cent. of the total expenditure without bringing about any improvement. The municipality has no market and the sanitary conditions of the private markets are disgraceful.

As regards municipal administration in the district of Bankura, the District Magistrate remarks that it cannot be said that any of the municipalities were administered efficiently in respect of roads, drains, sanitation, water-supply or finance. In Bankura road repairs are neglected or done in a very incompetent manner and encroachments are being made with impunity. There are far too many insanitary tanks and dobas in this town.

Mr. Goode, Magistrate of Midnapore, writes as follows on the working of the municipalities in his district:—

" Generally speaking, there seems to me small scope for praise and less ground for blame in reviewing the administration of these municipalities. * * * Most of them possess incomes which are less than those of many union boards; their establishments are meagre. * * * High taxation is necessary if any advance is to be achieved. * * * The incidence of taxation in Midnapore is still only Rs. 3-1-3 per person while in Ghatal it is only Re. 1-5-11. Municipal amenities cannot be purchased at this price. With a 25 per cent. increase in taxation reserved for the service of loans, both these municipalities could advance, but as in the other municipal towns of the district, the poverty of the rate-payers, which is real enough, is urged against any considerable increase in taxation. * * * Adequate revenues are at present beyond the reach of all these municipalities, but I believe that most of them could support an increase in their assessments which would make progress possible. * * * In the Tamluk Municipality there are signs of life and prosperity. A portion of the market has been brought under khas possession; a tube-well 407 feet in depth has been sunk; a pucca ghat has been extended, a pipe distribution system is rendered possible by the munificence of the late Babu Gopal Prasad Garga, Zamindar of Mahisadal, the number of street lights increased and some drains improved. A class for training indigenous dais was opened with the assistance from Government and vigorous measures were taken to cope with a severe outbreak of small-pox. * * * "

Party faction exists more or less in most of the municipalities in the district of Hooghly.

The financial condition of the Hooghly-Chinsura Municipality is deplorable. The income from neither latrine fees nor water-rate pays for the services which they are meant to finance and these services again are far from perfect. The condition of the roads in the town is bad and they are not regularly watered. Drainage is also bad. The lighting of the area served by electric light has been fairly satisfactory but in other areas it is wretched in the extreme.

The Commissioner of the Division observes:—

" There is little to redeem the working of such municipalities as Bankura or Hooghly-Chinsura, and in these cases, one might almost say that the commissioners sin against light. The majority of the commissioners of the Kotrung Municipality are completely out of touch with the more enlightened of the rate-payers and refuse to do work which is recommended by the Sanitary Department and supported by the rate-payers. This state of things comes entirely from the personal ambitions of a very small clique.

There can be no doubt that instances of the worst type of management still are too many, probably even in the majority, among the municipalities. I believe, however, that there are more signs to-day of an awakening and that schemes that must improve health and sanitation are getting the support (actually shown in the form of contributions) of a larger body of the rate-payers. Burdwan and Midnapore are extending their water-supply and the former body is making use of the local electrical supply. Asansol got together for a water-supply nearly two lakhs of rupees in a surprisingly short time. Suri has put through

its water-works scheme and is not afraid to undertake a drainage scheme. Tamluk has persisted and is practically assured of its drinking water-supply. Even in Chandrakona, faction has not entire control and the fact that in Bally the various factions contested to elect as Chairman a nominated member to get them out of the financial slough into which they had sunk, in my opinion, shows a real change in the attitude of commissioners towards public duties and testifies to a further growth in the sense of responsibility to the tax-payers."

Presidency Division.—Mr. E. N. Blandy, Magistrate of the 24-Parganas, makes the following remarks on the working of the municipalities in his district:—

"The total of outstanding balances has gone up again, though by a smaller figure than in the previous years. This shows that the Boards in many cases have still not learned the necessity and the duty of collecting taxes promptly. * * * The valuable assistance, both financial and personal, to municipal administration afforded by the mills again calls for remark. Such projects as the sewerage scheme in Titagarh and the Naihati water-supply are largely due to their co-operation. * * * * The municipalities during the period under review seem to have been more interested in water-supply and public health than in other directions and good work is being done. But it is yet to be seen whether this will produce a permanent improvement. If only they would set to and collect their full income and their arrears still more progress in these and in other directions would be possible. Civil suits and election disputes are unhappily common and municipal funds are not infrequently wasted in this unprofitable bickering."

Mr. Durno, Magistrate of Nadia, epitomises the working of the municipalities in his district as follows:—

"Krishnagar tries, and deserves sympathy and help. In Nabadwip they merely quarrel. Santipur was quite incorrigible, but it is hoped that the new board will open a new chapter. Ranaghat is dirty and dusty. A visit to Birnagar is a cure for depression (he adds every municipality that despairs should send its commissioners to Birnagar to see what can be done; it is an object lesson). Chakdah says it has no money. It has a dispensary, four lamps, a few wells, one quarter-time sweeper and one road cleaner who has been in service since the institution of the municipality in 1886; he now pulls the office punkha. Kusthia always seems the cleanest and brightest place in the district. Kumarkhali is a village which tries to be a municipality, and does not make a bad attempt at it, Meherpur people suffer from acute inertia and seem to prefer living in insanitary surroundings sooner than part with any of their money."

The municipal administration of the district of Murshidabad was marked by no special advance. The working of the Jessore Municipality is fairly good and that of Khulna is above the average. There was no improvement in the financial position of the Satkhira Municipality. The outstanding balance was Rs. 8,098 against a current demand of Rs. 17,407.

The Commissioner of the Division makes the following remarks:—

"There is nothing of particular interest that marks the administration of the municipalities during the year. Increased interest was shown at the elections as would appear from the figures at the polls, but when we come to the actual working of the boards, we notice the same apathy in the members and same slackness in the executive that have been the subject of adverse comments year after year. In a few municipalities party feelings played an important part in the administration, and in Nabadwip, which had already acquired considerable notoriety in this respect, the feelings grew acute and eventually culminated in a resolution recently adopted by the required majority of the commissioners removing their Chairman from office.

The incidence of taxation showed a slight upward tendency and so also the percentage of collections over the current demand. But larger outstandings and a smaller surplus maintained at the end of the year will be noticed almost everywhere. This shows that there has been very little change or improvement in the general conception of duty on the part of the members or of the executive. Santipur comes in for severe comments from the Magistrate of Nadia for its mismanagement, but it is hoped that the new board recently formed will put matters straight. Debhatta in Khulna is another that has acquired notoriety

for mismanagement and in fact it seems to be an apology for a municipality, and the question whether a union board could not take its place is under the consideration of the local officers. * * * * * * * Attention is being given here and there to free primary education scheme, but no very marked advance was made during the year. Public health and sanitation received attention as far as possible with the funds at the disposal of the municipalities, but no scheme of any comprehensive nature for improvement of sanitation, education or development of roads could be initiated, owing to lack of funds."

Dacca Division.—The following extracts are quoted from the report of the Magistrate of Faridpur on the working of municipalities in that district:—

"The management of the municipalities has outwardly been smooth enough but at Madaripur much discontent has been expressed on the score of the anomalous position in which the municipality is placed by reason of the permanent absence of its Chairman. He has been absent for over 6 months and yet no attempt has been made by the majority to secure his resignation and elect his successor. * * At Faridpur in spite of the existence of two parties or rather the followers of two persons, there was no special difficulty in internal administration."

The insufficiency of funds for carrying out ordinary municipal works is the general characteristic of the municipalities in the district of Faridpur. In Faridpur Municipality there are various works to undertake (e.g., improvement of the market, better sanitation, proper maintenance of roads, provision of primary education) but these cannot now be taken in hand for want of funds. Tax on persons is levied at the rate of one per cent. on the annual income. This is less than the rate levied in many small towns. The District Magistrate observes that if the commissioners are unwilling to levy a tax on holdings, they must, at any rate, increase the present rate of taxation on personal income. It is reported that the rate of assessment at Madaripur is capable of considerable augmentation without hardship.

The financial position of the Barisal Municipality is worse than it was a year ago, its arrear demands being only Rs. 459 less than that of the previous years and even this reduction has been effected by granting remissions of almost Rs. 10,000. Patuakhali is, in parts at least, the most ill kept of the municipalities while party faction has grown at Jhalakati. Pirojpur calls for no special comment and Nalchiti, though it maintains its previous good record, is showing signs of decay. The Bhola Municipality is largely make-believe and the Magistrate doubts whether a union board would not be an improvement.

Chittagong Division.—The Commissioner of the Division observes:—

"The financial condition of the Chittagong Municipality is still far from satisfactory. The Cox's Bazar Municipality continued to do work with its small income. * * * The completion of the tube-well at Brahmanbaria marks a definite advance in the progress of the scheme for the supply of filtered water in that town. The Chandpur Municipality showed progress in all spheres of municipal activities. The municipal commissioners of Noakhali failed to take advantage of the general revision of assessment to place their finances on a stable basis. Their requests for assistance from Government and other quarters are numerous and persistent while they seem oblivious of the useful dictum that they alone deserve help who help themselves."

Rajshahi Division.—The resources of both Rajshahi and Nator are too small for the work to be done. The roads particularly in Nator are being starved of money for repairs. The main problems of Rajshahi are water-supply and drainage. Dinajpur is reported to have been efficiently administered. In Jalpaiguri realisations were somewhat worse than in the previous year. There was no improvement either in the roads or in the sanitary condition of the town. The District Magistrate reports that the general standard of administration of the Rangpur Municipality remained at practically the same level as in the past years. The general health of the town of Gaibandha was fairly good and the administration of the municipality has been satisfactory. The financial position of the Bogra Municipality is still far from satisfactory, as the deficit balance of the general fund has not yet been made up; the conservancy arrangements were on the whole fairly satisfactory and the municipal roads are not very bad. Sherpur is an old decaying town: its income is hardly sufficient to

allow of any improvements in roads, sanitation, drainage, water-supply, etc. The financial position of Pabna has improved a little but that of Sirajganj is far from satisfactory. There has been no marked improvement in the municipal administration in the district of Malda. The working of the Kurseong Municipality is reported to be satisfactory.

The Commissioner of the Division observes:—

"There has been no marked improvement in municipal administration in this Division. There is still a disinclination on the part of most of the municipalities to take steps to improve their finances and to realise in full the taxes already imposed, due partly to apathy and partly to the fear of incurring unpopularity. There are still party feuds in some which hamper all good work; and there is still a lack of active sanitary conscience which perhaps prevents them all from taking measures which will increase the amenities of life. Indications are not, however, wanting that these bodies are waking up, although slowly. Several municipalities, e.g., Rajshahi, Pabna, English Bazar and Nawabganj, have realised that good drinking water is an essential necessity and inaugurated water-works schemes which they are doing their best to push on. Others, unable to finance such large schemes, are sinking tube-wells as fast as they can. Some, again have taken measures to extend medical relief and to combat epidemic diseases. These are encouraging signs and lead one to hope for greater improvements in every direction before long."

19. **Concluding remarks.**—The Minister is gratified to observe that even the Commissioner who has been most outspoken and unsparing in his criticisms of the working of municipalities in his Division nevertheless ends his report on a distinct note of optimism. There has undoubtedly been material progress in several directions, although it is slow. The increase in the number of water-works and electric light installations of recent years has been mentioned in the body of the report.

The complaint of lack of funds is chronic; but it must again be pointed out that most municipalities would be better off if they took a stronger line with defaulters. It is hardly creditable to Bengal that arrears of municipal taxes have increased more than three-fold since 1919-20. This simply means that municipal commissioners are punishing worthy citizens for the sins of the unworthy.

The names of the following Chairmen, Vice-Chairmen and municipal commissioners have been brought to the notice of Government on account of good work done by them, and the Government of Bengal (Ministry of Local Self-Government) desire to express their appreciation of the public spirit shown by these gentlemen:—

Burdwan Division.

Rai Manmatha Nath Bose Bahadur, Chairman, Midnapore.

Babu Mahendra Nath Maity, late Chairman, Tamluk.

Babu Monmohan Mukherjee, Chairman, Bally.

Babu Girish Chandra Mandal, Commissioner, Raniganj.

Lala Mritunjai Lal, Chairman, Suri.

C. ADDAMS WILLIAMS,
Chief Engineer, Government of Bengal,

RESOLUTION ON THE REPORTS ON THE WORKING OF DISTRICT BOARDS IN BENGAL DURING THE YEAR 1927-28.

GOVERNMENT OF BENGAL.

Local Self-Government Department.

CALCUTTA, THE 20TH FEBRUARY 1929.

RESOLUTION—No. 673 L.S.-G.

Minister-in-charge: The Hon'ble Raja Bhupendra Narayan Sinha Bahadur, of Nashipur.

READ—

The reports of the Commissioners of Divisions on the working of District Boards in Bengal during the year 1927-28.

District Boards.—The total number of members during the year remained the same as in the previous year, viz., 683, and the percentage of elected members was 62·3. The Darjeeling District Board is the only one that has a Chairman appointed by Government. The privilege of electing its own Chairman has been restored to the Midnapore District Board. The number of meetings held during the year was 418 of which 3 proved abortive for want of a quorum. None of the District Boards except Darjeeling held less than 12 meetings during the year. Generally speaking the members showed interest in the affairs of the Boards and worked harmoniously with their non-official Chairmen.

2. **Local Boards.**—There were 82 Local Boards as in the previous year and out of them four were presided over by non-official Chairmen appointed by Government, another four by elected official Chairmen and the rest by elected non-official Chairmen. The total number of members was 1,339 against 1,335 in the previous year. The increase was due to the addition of one member to the Manikganj Local Board in the Dacca district and of 3 to the Sadar Local Board of Bakarganj. Of the total number of members 863 were elected. The Local Boards held 817 meetings of which 17 proved abortive for want of a quorum. The question of the future of Local Boards is still under consideration.

3. **Village Self-Government.**—(As all reports are not to hand this will form the subject of a separate resolution).

4. **Finance of District Boards.**—Receipts amounted to Rs. 145·5 lakhs against Rs. 138·75 lakhs in the preceding year, the increase being mainly due to larger receipts under the heads "Education," "Civil Works," "Medical" and "Local Rates." Under the sub-head "Tools on ferries and roads" under "Civil Works," receipts increased by Rs. 1 lakh largely as a result of the transfer of provincial ferries to District Boards at the beginning of the year. Receipts declined appreciably under the heads "Police" and "Miscellaneous." Disbursements rose from Rs. 141·2 lakhs to Rs. 149·2 lakhs. The increase was chiefly due to larger expenditure on "Medical," "Debt" and "Education." Outlay on "Civil Works" fell by Rs. 2 lakhs. The closing balance amounted to Rs. 31 lakhs (of which Rs. 16 lakhs were in cash) against Rs. 34·68 lakhs in the previous year.

5. **Taxation.**—The average incidence of cess throughout the Presidency was 2 annas 10 pies a year per head of population varying in different districts from 1 anna to 7 annas 7 pies.

6. **Education.**—Expenditure rose by Rs. 2·3 lakhs to Rs. 35 lakhs of which Government contributed Rs. 21·6 lakhs, while other contributions, school fees and miscellaneous receipts amounted to Rs. 4,821, Rs. 44,155 and Rs. 29,486, respectively. District Boards from their own funds contributed Rs. 12·6 lakhs against Rs. 13·8 lakhs in the previous year.

The number of upper and lower primary schools maintained and aided by District Boards rose from 43,701 to 46,416 of which 34,566 were boys' schools and 11,850 girls' schools. The number of pupils attending these schools was boys 1,248,500 and girls 307,841 against 164,738 and 280,668, respectively, in the previous year.

Union Boards continued to maintain free primary schools on the lines suggested by Mr. Biss, but the Palong Union Board in the Faridpur district abandoned the free primary school scheme and similar schools in the Kabirajpur Union

of the same district were also abolished. The primary schools in Burdwan continued to be under the management and control of the Union Boards excepting those of the Asansol subdivision and of the jungle mahals in the Sadar subdivision where there are no Union Boards. In Howrah district the management of three upper primary schools, six lower primary schools and one girls' school were transferred to the control of the Union Boards and the aided primary schools situated within ten of the Unions were transferred to the respective Union Boards along with the grants allotted to the schools in the budget. In addition to these, six primary schools started in this district under the Griffith scheme were maintained during the year at a cost of Rs. 100 each per mensem, one half of which was contributed by Government and the other half by the respective Union Boards. The cost of construction of new buildings and of equipment was also paid by Government and the Union Boards in equal shares. Twenty-two free primary schools started in the previous year were maintained by the 24-Parganas District Board and the opening of forty more such schools was under the consideraion of the Board. In Jessore one lower primary school was started by the Muchis of Kagmari in the Jhikargacha thana; the children are taught by Hindu teachers of the higher castes which is said to be an unusual thing in those parts.

Technical and industrial education continued to receive attention. The District Board of Nadia accepted a proposal for the establishment of a peripatetic weaving school on payment of a contribution of Rs. 150 and has further accepted an annual liability of Rs. 300 for the establishment of a permanent District weaving school at Santipur in collaboration with the Santipur Municipality. The newly started theoretical industrial class in the Kashi Kishore Technical School maintained by the Mymensingh District Board is reported not to have been popular. A peripatetic weaving school was established at Sibpur which is a very important weaving centre in the Sadar subdivision of the Pabna district. The Howrah District Board increased its expenditure on the encouragement of hand-spinning in middle schools. With a view to improve the physique of boys the District Board of Midnapore appointed during the year, as an experimental measure, a physical instructor to train the pupils of the Board's schools as well as those of aided middle and primary schools in the methods of physical culture. With the same object the Bankura District Board started a school of physical culture which was placed under the management of a joint committee composed of District Board members and Commissioners of the Bankura Municipality.

7. **Medical Relief and Public Health.**—The expenditure under these heads increased appreciably and aggregated Rs. 26·1 lakhs against Rs. 21·7 lakhs in the previous year. The increase is in part due to the Government grants towards the rural public health organization which came into being during the year under report. Twelve new dispensaries were opened during the year and the total number of dispensaries maintained and aided were 520 and 357, respectively, against 508 and 346, respectively, in the previous year. Dispensaries were also maintained by some Union Boards. There were also 8 dispensaries subsidised by the District Board of Khulna. Medical relief was as usual provided primarily through these Allopathic dispensaries and also to a small extent through Homeopathic, Ayurvedic and Hakimi diepensaries maintained or subsidized by District Boards. During epidemics of fever, cholera and small-pox additional centres were opened under trained doctors and itinerant doctors were also engaged for the distribution of medicine and the treatment of cases. The co-operative dispensary at Munshirhat in the district of Howrah run by five group societies was visited by the members of the Public Health Commission deputed by the League of Nations. The visitors are said to have approved of the work done. As in the previous year, co-operative societies and health associations did useful work and undertook the treatment of, and initiated preventive measures against, kala-azar and malaria. The extensive propaganda work undertaken in connection with kala-azar has checked the growth of the desease considerably. In the 24-Parganas the District Board's campaign against the disease met with a large measure of success and the practical eradication of this scourge is said to be almost within sight. In Nadia the Vice-Chairmen of the District Board

conducted a travelling public health and veterinary exhibition round the district. Mr. Durno, the District Magistrate, remarks that a simple exhibition of this nature by going round to the homes of the villagers does more practical good than an elaborate one held at a fixed centre and has also the advantage of being cheaper. Under the recent rural public health organisation scheme each rural thana is to have a public health staff engaged on preventive work and propaganda work, and the whole cost of the staff is to be met from provincial funds. Such organisations are already working in approximately half the thanas in the rural areas of the province and it is expected that the establishment of these public health centres in all the thanas of the province will be complete by the beginning of 1930-31. Much valuable work is expected from the organisation when it is in full working order. A good beginning has already been made and it is hoped that this bold step towards tackling the very difficult problem of rural health in Bengal will soon come to be appreciated.

Both cholera and small-pox broke out in epidemic form in several districts. Prompt and effective measures were taken by the District Board to cope with these outbreaks. Inoculation with anti-cholera vaccine and disinfection of sources of water-supply checked the spread of the disease in many places within a very short time. Measures were taken to push on intensive vaccination. Vaccination and re-vaccination were thoroughly carried out in Pabna under the gang system and the number of successful vaccinations aggregated 212,750. During the year the Government vaccination inspecting staff was transferred to the control of District Boards

More attention was paid to maternity and child welfare work and several District Boards opened dai-training centres and held baby shows. In the Jalpaiguri District a promising start was made with dai-training classes and attempts are being made to interest tea garden managers in the organization of such classes in the tea garden areas.

The Bankura District Board made special arrangements for free treatment of lepers. Two more leprosy clinics were opened during the year and placed under the charge of doctors specially trained in Calcutta in Dr. Muir's method of treatment. The doctors were also required to do survey and propaganda work, taking a census of lepers, collecting data and instructing the people.

8. **Veterinary.**—The charges under this head slightly increased from Rs. 2,09,146 to Rs. 2,17,415, the increase being shared by 12 District Boards and notably by those of Burdwan, Bakarganj, Pabna, Darjeeling and Rangpur. Expenditure decreased in 14 districts, the fall being most marked in Nadia, Chittagong, Midnapore, Rajshahi and Dinajpur. Cattle disease broke out in the Burdwan, Bankura, Murshidabad, Khulna, Mymensingh, Faridpur, Bakarganj, Tippera, Bogra and Malda districts and prompt measures were taken by the District Boards to inoculate the cattle in the affected areas. 984 animals against 2,802 in the previous year are reported to have died from contagious disease in Bakarganj. The Nadia District Board organized cattle shows and veterinary lectures on cattle welfare by means of a touring health exhibition. The Bankura District Board, in addition to the two itinerant veterinary assistants maintained by it, engaged a veterinary propaganda officer to instruct the villagers in matters affecting improvement and treatment of cattle and also to help the regular itinerant officers in times of need. The Dinajpur District Board, on the other hand, did away with the services of the fourth veterinary Assistant Surgeon entertained in the previous year.

9. **Civil Works.**—The total expenditure under this head, which includes sums spent on water-suppply and drainage, fell from Rs. 64·81 lakhs to Rs. 62·8 lakhs. The principle items of expenditure under this head are "Buildings," "Communications," "Water-supply" and "Establishment" Expenditure on the last two items slightly increased while that on "Buildings" and "Communications" decreased by Rs. 1,50,000 and Rs. 64,000, respectively. The outlay on original works under "Water-supply" showed an increase of Rs. 71,000, but the cost of repairs decreased by Rs. 9,000, while in the case of "Communications" capital expenditure fell by Rs. 1·14 lakhs and maintenance charge rose by Rs. 50,000. District Boards were perhaps well advised in adopting a more conservative policy in this respect.

The mileage of metalled and unmetalled roads was 2,545 and 15,792 against 2,513 and 15,447 of the previous year.

As pointed out in last year's Resolution the increasing use of motor vehicles in the mufassal made it very difficult for District Boards to maintain their roads in proper condition. The roads are in consequence rapidly deteriorating and it is recognised that unless additional funds are made available to District Boards the condition of the roads will be most deplorable. The Road Development Committee referred to in the last year's Resolution submitted its report to the Government of India recently making comprehensive recommendations about methods by which schemes of road improvement may be financed out of the proceeds of new central and provincial taxes. Local Governments have been asked to express their view on these recommendations and the Government of Bengal have them under consideration. If the District Boards wish to protect their roads from undue wear and tear they can adopt the model by-laws framed by Government empowering them to close specified roads and bridges to all motor vehicles or to motor vehicles over a certain weight.

The income (Rs. 13,144) of District Boards from roadside trees showed a slight decline while expenditure fell by Rs. 5,000 to Rs. 20,704. The number of trees planted during the year also decreased from 9,165 to 3,265. District Boards in general show no sign of taking a long view in this matter. Timbers and fruit trees are ultimately remunerative and to plant them may be a good investment. Another point which indicate indifference is the unwillingness of District Boards to depute overseers, sub-overseers or road sarkars for courses of training in the classes for arboriculture held by the Curator of the Royal Botanic Garden at Sibpur. The Curator's report on the class held during 1928 shows that none of the officers trained in it came from any of the District Boards in this province.

The percentage of total lapses to the total budget allotment increased, specially in the Nadia (20·8), Faridpur (15·3) and Murshidabad (9·7) districts. The percentage though still high decreased in Burdwan (12·47) and the 24-Parganas (13·2). The large lapse in Nadia was partially due to the preoccupation of some of the subordinate engineering staff with famine test works towards the end of the year and that in the 24-Parganas was due to the fact that some works provided for in the budget could not be taken up as land acquisition proceedings were not complete in some cases and preliminaries could not be finished within the year. The high percentage in Burdwan is attributed to the fact that there was a partial suspension of civil works payments during the latter part of the year necessitated by lack of funds and the low balance at the close of November 1927. The lapses at Faridpur and Murshidabad have not been explained. There was a marked decline in the lapses in Jessore, Pabna, Darjeeling, Noakhali and Bankura, while in Chittagong, Rajshahi and Malda the expenditure exceeded the budget allotments.

10. **Water-supply.**—Expenditure on water-supply rose from Rs. 8·62 lakhs to Rs. 9·25 lakhs. Many of the Boards displayed much activity in this respect. Interesting features of the divisional reports are the following :—

The Hooghly District Board sank 199 tube-wells bringing the total number of such wells in the district to 362. It is reported that tube-wells have proved a great success in this district. In the 24-Parganas the sinking of 150 tube-wells, excavation of 5 tanks, re-excavation of 25 tanks and two masonry wells were completed and in addition a good number of tube-wells were sunk by Union Boards. The total number of tube-wells in this district came to 841 and the Board maintained a staff consisting of one Inspector, one mechanic and five mistries to look after them. In Faridpur three sets of apparatus for sinking tube-wells were purchased and mistries were trained. During the latter half of the year about 50 tube-wells were sunk in different localities at a cost much below what contractors charge for similar work. The water of these wells is very much used and appreciated and as soon as one tube-well was sunk there came a rush of demands and the Union Boards and villagers came forward to contribute liberally. One particularly noticeable effect of the tube-wells was that the localities which they served remained immune from epidemics which were raging throughout the district. In

view of the large demand for tube-wells the District Board contemplated an increase in the number of trained mistries. The Noakhali District Board adopted a scheme of granting loans without interest to private owners for the improvement of selected tanks, the loans to be recovered in ten annual instalments and the Chittagong District Board resolved to undertake the re-excavation of private tanks on the owner's bearing a portion of the cost and executing agreements to allow access to the public.

In view of the impossibility of providing sources of pure drinking water in rural areas out of sums which Government and local bodies can spare out of current income and in pursuance of the principle that the cost of works of a more or less permanent nature should be spread over a series of years, Government enunciated a loan policy for rural water-supply in their circular No. 103-07-T—P.H., dated the 28th May 1928. The principal features of this scheme are that District Boards should take loans from Government for improvement of water-supply in the villages and that the annual Government grant of Rs. 2½ lakhs instead of being for five years only should be made permanent and should be used in reducing the amount of interest which District Boards have to pay on the loans taken for this purpose. This policy was approved at a conference of District Board representatives held in December 1927 and in the course of 1928 the District Boards were asked to prepare a full programme of work, to be financed from loan funds. It is hoped that Government will be able to meet the requirements of those Boards which put forward well-considered schemes of water-supply. Some misunderstanding was caused by a remark in the abovementioned circular to the effect that the money to be borrowed by District Boards would not be available for the provision of small and short lived tube-wells. This was construed in some quarters as a condemnation of the tube-well as a source of rural water-supply; this impression was entirely wrong. The Minister has noted with gratification the popularity and success of tube-wells in certain districts, e.g., those mentioned earlier in this paragraph, and equally with his predecessor he would like to see such wells multiplied in areas to which they are suited. All that the circular was intended to convey was that loans intended to have a currency of 20 or 25 years could not, with any financial propriety be used to provide the cost of works not likely to last for anything like that period. The cost of small tube-wells is within the means of village communities and of Union Boards and in order to provide them it is hardly necessary to resort to the cumbrous machinery of a Government loan.

Apart from this consideration, there is no reason why the cost of such wells should not be met from short-term loans, the period of repayment being calculated on the probable life of the work; and Government are accordingly willing to lend money to District Boards, so far as the state of the provincial balances or of their borrowing powers permit, in order to enable those bodies in turn to lend out money to Union Boards in furtherance of sound schemes of water-supply through tube-wells.

11. **Closing Balance.**—The year closed with an actual balance of Rs. 16 lakhs against Rs. 17·8 lakhs of the previous year. The District Boards of Dacca (Rs. 2·54 lakhs), Tippera (Rs. 1·76 lakhs), Midnapore (Rs. 1·7 lakhs), and Burdwan (Rs. 1·46 lakhs) had heavy balances. Of the accumulation in Dacca Rs. 81,000 represented the actual balance and Rs. 1,21,000 the value of uncashed cheques while an allotment of Rs. 38,000 for construction of dispensary buildings and school houses could not be utilised. The large balance in Tippera is explained by the fact that it includes the loan of rupees one lakh received by the Board from Government on the closing day of the year for the improvement of roads and construction of bridges; and that in Burdwan was due partly to the fact that a donation of Rs. 30,000 towards the cost of road work and a Government contribution of Rs. 10,000 towards equipment of the mechanical class of the Technical School could not be expended before the close of the year. No explanation has been furnished for the large balance in Midnapore.

12. **General Remarks.**—On the whole the reports received from the Commissioners record a successful year's working, although special difficulties due to short rainfall and scarcity had to be faced in several districts. The District Boards of Birbhum, Nadia, Khulna,

Murshidabad and Dinajpur all co-operated whole-heartedly and successfully with the district officers in coping with the scarcity that prevailed. Nadia had a special difficulty inasmuch as the increased income due to the cess re-valuation was much less than had been anticipated when the budget was framed, but the work of this Board and its Chairman and Vice-Chairman comes in for special praise from the District Magistrate. The Burdwan District Board was successfully administered in spite of the dwindling income due to depression in the coal mining industry. The 24-Parganas District Board is now reported to be working smoothly, but the Chairman remarks that " the public is as apathetic as before and the spirit of self help appears to be dead in them. They seem to think that outside agencies viz., Government and District Board, will do everything for them." Regarding the Bankura District Board, Mr. Cook, the Commissioner, remarks :—

" I regret to say that this Board has been found extremely difficult to work with, and this drawback has been all the more felt as there was considerable distress in part of the district, which necessitated more than the usual amount of contact with it. It was only with the greatest of difficulty that the Board could be induced to meet the cost of test works while arrangements were being made for advances from Government nor would the Board admit that some responsibility rested with them in meeting the situation. Latterly, there is reason to believe that famine rates have not been adhered to in paying labourers. It is hardly too much to say that some of the Board's doings were intentionally done to flout Government. That its policy was avowedly Swaraj goes without saying, with the result that large grants were given to institutions professing that creed. In fact, the method of disposing of most items of the Board's business is said to be decided on in a meeting of the Congress Committee, before they are put to the Board."

Mr. Goode, the District Magistrate of Midnapore, while criticising the policy of the Midnapore District Board in certain respects, goes on to say :—

" But in spite of these criticisms, I think there has been recently more steady and sober recognition by the Board of it reponsibilities to the public than the records of the last few years suggest. I have found a readiness on the part of the Board to co-operate with Government officers and my thanks are due to the Chairman for the courteous consideration which my suggestions in matters affecting the administration of the Board have invariably received. Party politics still unfortunately carry too much weight in the management of local affairs, and the Board's policy is often given a twist which does not conduce to good administration, but I believe that the Swarajist Board of Midnapore has done much sound steady work in the past year and that its dependence on the electorate for a continuance of its powers, which has to a large extent dictated its policy—in its prudent use as well as its abuse of power—has to some extent produced in the minds of the people some realisation of the elector's responsibility and I think there are signs of a growing sense on the part of the people—which are all to the good—that they have it in their power to demand a reckoning from unfaithful or inefficient representatives."

The reports do not indicate that party politics entered into the administration of any other District Boards, possibly because, as remarked by *Forward* in a leading article of 4th January 1929, " it is notorious that many of those who have got into local bodies on the Congress ticket have either no politics or have politics of a sane type."

Complaints of lack of funds are as loud and as well-founded as ever. It is the general opinion that taxes on vehicles kept in rural areas are overdue, and some think that these should take the form of tolls on roads ; otherwise no District Board has put forward any proposal for fresh taxation in spite of the hint given in last year's Resolution. Nevertheless the Minister thinks that the next decade should bring about considerable improvement of conditions in the rural areas of Bengal. The Primary Education Bill, if it becomes law, should in time banish illiteracy, while in the rural public health organisation, the cost of which is provided by Government, District Boards have an instrument which, properly used, should enable them to stamp out cholera and small-pox and possibly also, to lessen the incidence of malaria. The introduction of taxes on vehicles, the proceeds thereof being earmarked for road development, should

in time bring about a marked improvement in the communications of the countryside and should thereby facilitate the marketing of agricultural produce, while Union Boards provide a network of authorities which can pay closer attention to the villagers' needs than a remote and overburdened District or Local Board can pay; the establishment of new Union Boards which use their powers of taxation is moreover, by an almost automatic process, progressively increasing the amount of money available for improvement of rural conditions.

The Minister desires to express his appreciation of the good work done by the following gentlemen :—

(2) The Board may recover all expenses incurred by the Chief Sanitary Officer in carrying out the measures under regulation 4 from the person or persons to whom the notice was originally issued.

Sixth publication.

No. 21—The 18th January 1929.—The following draft of rules which, in exercise of the powers conferred by section 11 of the Canals Act, 1864 (Bengal Act V of 1864), the Governor in Council intends to make for the regulation of traffic in the line of navigation known as the Mahananda river (100 miles in length) in the districts of Malda and Rajshahi which has been declared under section 2 of the said Act in Bengal Government notification No. 10-I., dated the 18th October 1927, published in Part I of the *Calcutta Gazette* of the 27th idem, is hereby published for the information of persons likely to be affected thereby.

II. The draft will be taken into consideration on or after the 10th April 1929, and any objections or suggestions received by the undersigned before that date will be considered:—

Draft Rules.

1. All vessels, when moored, must be made fast by the bow and stern along the bank so as not to obstruct other vessels passing in the river.

2. In such portions of the river where only one towing path exists, vessels must be moored on the off-side and the towing path side kept clear.

3. Only one vessel is allowed to make fast along and in line with the river banks, and no other vessel is to be made fast or to be placed outside of vessels so secured without the special permission of the Supervisor. No vessel or raft is to be placed in such a position as to endanger the safety, or obstruct the passage, of other vessels, and all vessels are to be moored in such places and in such a manner as the Supervisor may at any time direct.

4. The Supervisor may, by notification, prohibit the dropping of anchors or the erection of bamboos or *luggees* in or on any portion of the river or banks, and no anchors may be dropped or bamboos or *luggees* erected at such prohibited sites.

5. No vessel shall be moored at a distance of less than 500 feet from the junction of two or more rivers.

6. Vessels are not permitted to anchor or moor in the restricted portions of the channels maintained by training works.

7. Before entering such restricted channels the person in charge of the vessel must lighten his vessel sufficiently to prevent grounding in the channel.

In the event of any vessel running aground, the person in charge of the vessel must arrange for its immediate release by all means possible, failing which it will be lawful for the Supervisor or his subordinates to arrange to remove such vessel and to recover the costs of such operation from the owner of the vessel as provided for in rule 11 below.

8. No person is allowed to place any obstruction on the river banks so as to impede free passage along them. No person is permitted to place any obstruction in the river bed so as to impede navigation or cause any deterioration of the channel.

9. No person shall wilfully or negligently allow a vessel to sink in the river.

10. In every case of a sunken vessel, whether due to negligence or otherwise, the Supervisor and his subordinates shall offer every assistance in removing the same.

11. If three days after the occurrence of a wreck it is seen that prompt measures are not being taken by the owner to remove the sunken vessel from the line of navigation, the Supervisor and his subordinates shall make their own arrangements for the removal of the same at the expense of the owner, provided that, when the wreck obstructs the fairway, they may take action at once to remove the same.

A notice must be affixed on the wreck when recovered, calling on those concerned to pay to the Supervisor all expenses incurred in the recovery or removal of the wreck, and intimating that if the sum be not paid within fifteen days of the date of notice, the vessel and its furniture, or so much of it as may be necessary for the recovery of the dues, will be sold, the proceeds of the sale being dealt with as directed in section 9 of the Canals Act of 1864.

12. Every Canal Officer is authorised to remove any vessel, anchor, pole or any other thing which he may find in a position in contravention of these rules and to deal with it in such manner as may be necessary to give effect to the rules.

13. Whenever any laden vessel which has been sunk, has been recovered, or when a laden vessel has been seized under the provisions of the Canals Act or of these rules, the Supervisor must give immediate notice of the same to the owner or his agent, calling upon him to remove the cargo without delay and informing him that he will be required to pay all expenses necessary for the proper custody and storage of the cargo until removed.

14. If the Supervisor be unable to ascertain the name and the place of business or abode of the owner of the cargo of any vessel seized under the said Act, he must notify the seizure by advertisement in his office and in at least one public newspaper. Such notice shall require the owner to cause the immediate removal of the cargo and to pay all expenses incurred in providing for its proper custody and storage.

15. The Supervisor may incur whatever expenses are necessary for the proper custody and storage of the cargo of any vessel seized under the Act and, if the cargo be not removed within ten days from the date of seizure, he may sell the same at a public auction to be held in his office or at the place of seizure to the highest bidder, after giving ten days' notice of the auction by advertisement in at least one newspaper.

16. The money realised at such a sale is to be applied, in the first instance, to defray any expenditure that may have been incurred by the Supervisor on account of the cargo sold, and the balance, if any, is to be held in deposit to be paid to the owner of the said cargo on his applying for the same.

17. No officer of any description or rank employed on the river shall, either directly or indirectly, bid for or purchase any article sold under these rules or under the provisions of the Act.

18. Any person (other than the Supervisor or his subordinates), who infringes any of these rules, shall be liable to a fine not exceeding fifty rupees for any one infringement and to an additional fine at a rate not exceeding five rupees a day if the infringement be continued.

New Delhi, the 1st March 1929.

5. Shew Pujan Pandey, Constable, Calcutta Police	On the night of the 31st of January 1928, this constable, who was attached to the Special Patrol staff at Burrabazar Police Station, Calcutta, was patrolling in Burtola Street. This locality is infested with notorious characters and in consequence a special staff has been sanctioned for the protection of the area. The constable arrested 3 suspicious looking persons, one of whom he knew to be an old offender. He commenced to search their persons and recovered a packet of cocaine from one of them. The men arrested attempted to argue and bribe the constable, and finding this of no avail, one of them exclaimed, that they must now look to their own resources and free themselves. On this the second member of the party drew a knife and attempted to strike the constable in the chest. The constable with commendable courage continued to confine the three suspects and tried to avoid the knife thrust. One of the accused managed to free himself from the constable whose left hand was badly cut and bleeding profusely. In spite of this he maintained his grasp on the two remaining men until a motor driver came to his assistance. The people of the locality kept well in the background and gave no help to the constable. Just before the motor driver rendered assistance, the second of the accused freed himself and escaped, but the man who struck the knife blow, was firmly secured by the constable and taken to the Police Station. The constable displayed great bravery and devotion to duty at the risk of his life, in spite of having received injuries attended with loss of blood, which would have caused most people to give up an unequal struggle.

10. Sections 13, 14 and 17 of the said Act are hereby repealed.

STATEMENT OF OBJECTS AND REASONS.

The Port of Calcutta was reopened for pilgrim traffic to the Hedjaz in 1926 but the volume of traffic has been far below expectations. In 1926 only two ships sailed with pilgrims from Calcutta, and the same number in 1927 while in 1928 there was only one. The Commissioner of Police reported that the smallness of the number of pilgrims leaving Calcutta was largely due to the activities of pilgrim guides known as *Muallems* who acted in the interest of Bombay firms, and suggested that the local Government should take power to secure some degree of control over them. Under the Protection of Muhammadan Pilgrims Act, 1896, the local Government can control regular pilgrim brokers but the definition of the phrase " pilgrim brokers " in the Act is not wide enough to include *Muallems*. Government have therefore decided that the Act should be amended so as to give them the necessary power and this amending Bill has been prepared with that object. It is also proposed to omit certain sections which the provisions of the Indian Merchant Shipping Act, 1923, render unnecessary.

(2) Save as expressly provided in this Act, no removal order, no order of forfeiture, and no prohibition order shall be called in question in any Court or by or before any other authority whatsoever, and nothing in section 491 of the Code of Criminal Procedure, 1898, shall apply to any person in respect of whom any such order has been made. V of 1898.

(3) No prosecution or other legal proceeding whatsoever shall lie against any person in respect of anything in good faith done or intended to be done under this Act.

STATEMENT OF OBJECTS AND REASONS.

Evidence has accumulated for some time past of the subversive intentions and activities of the Communist International generally, and in particular of the efforts it is directing against India. The general policy of the Communist movement is to rouse a spirit of discontent and lawlessness in the masses, whether industrial or agricultural, with the ultimate object of destroying by violence both the government established by law and the present economic organisation of society, and substituting what they describe as the directorship of the proletariat. For the promotion of this movement, in India as in other countries, the Communists depend largely on the work of propagandists who are despatched to the country for the purpose of forming organisations intended to promote and spread communistic ideas and doctrines, and of creating general unrest among the masses. It is not reasonable that these agents of communism, if they happen to obtain entrance into India, should be allowed to stay in India with the object of undermining the whole structure of the life of the community. There is also evidence to show that bodies under the control or influence of the Communist International have been remitting sums of money in aid of the various industrial disputes recently in progress in India, disputes which, whatever may be their economic basis, have undoubtedly been fomented by communist agents. These remittances are made not from any legitimate interest in the merits of an industrial dispute but with a view to promoting the preliminary stages of the revolution to which such bodies look forward. Government have no desire to interfere to the detriment of men who are engaged in a legitimate industrial dispute with their employers, but it is manifest that a foreign organisation should not be permitted to support such movements with the ultimate object of promoting revolution. There is also reason to believe that money is remitted from communistic sources for the support of agents now in India and in aid of certain journals which preach the doctrines of communism. The Bill is designed to provide power to remove agents of communism who obtain entrance into India provided that they are not Indian British subjects or British subjects ordinarily resident in India or subjects of a State in India, and to forfeit or control the expenditure of funds remitted by communistic sources outside British India or intended to be applied in accordance with instructions from such sources.

DEPARTMENT OF AGRICULTURE, BENGAL.

Second Forecast of the Spring Oilseed Crops of Bengal, 1928-29.

[NOTE.—On an average of the five years ending 1926-27 the area under linseed in Bengal has represented some 3·3 per cent. and that under rape and mustard 11·6 per cent. of the total area under these crops in British India.]

Character of the season.—As reported in the first forecast, the sowings at the outset, though commenced under favourable conditions, were retarded by excessive rain in October. Subsequently, dry weather in November proved favourable for further sowings, but the drought, which prolonged till the middle of January, interfered with the growth and development of the crops. The excessive rainfall in the latter part of January caused some damage to the early-sown crops then maturing, but proved favourable to the late crops. On the whole, the season may be regarded as fairly favourable for the crops this year.

Area sown.—Oilseeds are chiefly grown in the Rajshahi, Dacca and Presidency Divisions. In the other two divisions the cultivation is small. The total area under these crops (excepting sesamum for which separate forecasts are issued) is returned at 882,700 acres this year as against 894,400 and 900,600 acres, respectively, in the corresponding and final forecasts of last year.

Outturn.—From the District Officers' estimates the provincial outturn of the different oilseed crops works out at 78 per cent. of the normal as against 75 and 69 per cent., respectively, in the corresponding and final forecasts of last year.

DEPARTMENT OF AGRICULTURE, BENGAL.

Second Forecast of the Wheat Crop of Bengal, 1928-29.

[NOTE.—On an average of the five years ending 1926-27, the area under wheat in Bengal has represented some 0·4 per cent. of the total area under wheat in India. The ratio of the irrigated wheat acreage to total wheat acreage in (a) British India and (b) in the territory now reported on has, in the five years ending 1926-27, averaged (a) 38·5 and (b) 14·0 per cent., respectively.]

Character of the season.—As indicated in the first forecast, weather conditions at the outset were favourable both for the preparatory tillage and for the sowings of the crop which commenced generally in the usual time, except in some North and East Bengal districts where the operations were somewhat late owing to excessive rainfall in October. The dry weather that followed was favourable at first, but being prolonged up till January affected the growth, specially in some West Bengal districts. Rainfall in the latter part of January proved generally beneficial, though rather too heavy in places. The season, on the whole, promises to be fairly favourable for the crop.

Acreage.—According to the estimates of the District Officers, the total area sown amounts to 122,900 acres this year as against 106,600 acres both in corresponding and final forecasts of last year.

Outturn.—The average provincial outturn, as worked out from district estimates, is 78 per cent. of the normal as against 59 and 64 per cent., respectively, in the corresponding and final forecasts of last year.

Nadia ..	23,100	10,500	12,500	23	67	Middle of October. Normal.	Continuous rain at the time of sowing and want of sufficient rain at the time of growth have caused some damage to the crop. Hence the outturn is anticipated to fall below the normal.
Murshidabad ..	35,500	17,800	35,800	50	83	Beginning of November. Normal.	The increase in area as compared with that of the last year is due to favourable weather conditions at the sowing time. The outturn is anticipated to fall below the normal owing to drought in December last.
Jessore ..	700	700	700	50	64	November. Normal.	The weather has not been favourable since the submission of the first forecast. Hence a low outturn is expected.

Rajshahi ..	18,600	7,500	6,300	50	83	November. Normal.	The decrease in area is due to the fact that on account of heavy rains in October some lands were under water and could not be cultivated in the Sadar circle. RESOLUTION ON THE WORKING OF UNION BOARDS IN BENGAL DURING THE YEAR 1927-28.

GOVERNMENT OF BENGAL.

Local Self-Government. Department.

CALCUTTA, THE 4TH MARCH 1929.

RESOLUTION—No. 789 L. S.-G.

READ—

The reports of Commissioners of Divisions on the working of Union Boards in Bengal during the year 1927-28.

The year 1927-28 was remarkable for a large increase in the number of Union Boards. The total number of boards which worked during the year was 3,005 against 2,260 in the previous year; in several districts Union Boards were sanctioned by Government but could not be formed before the close of the year.

Opposition to the application of the Village Self-Government Act has practically died down except in a few localities. The change of attitude that takes place after Union Boards have been working for a few years in a district is noteworthy. When boards are first established there is apt to be a certain amount of suspicion and reluctance to stand for election, on the part of possible candidates for membership. After a few years' work on the other hand elections are keenly contested. An unfortunate feature of this change of attitude is that defeated candidates sometimes set themselves up in opposition to Union Boards and try to thwart their activities.

Newly formed Union Boards are naturally unwilling to make full use of their powers of taxation. Much could be done to overcome this reluctance if District Boards were able to adopt a judicious policy of grants-in-aid, making their contributions proportionate to the amount of self-help shown by each Union Board; but however benevolent the attitude of District Boards may be, few of them can afford to spend much on this account.

The Union Boards which worked during the year realised under clauses (*a*) and (*b*) of section 37 of the Bengal Village Self-Government Act and as rents of chaukidari chakran lands a total sum of Rs. 42·5 lakhs. In Tippera district in particular there was a notable increase in the amount of taxation under section 37(*b*). Receipts from other sources brought the total income up to Rs. 56 lakhs, of which Rs. 35·2 lakhs was spent on establishment (chiefly daffadars and chaukidars) and collecting charges and the balance on what may be called "nation building" or "village uplift" work.

As was natural in a year of drought special attention was paid to the improvement of water-supply and much activity in this direction is reported. A few boards also constructed or maintained small irrigation works. A number of dispensaries were maintained by Union Boards and in some places a good deal was done to promote or assist primary education. Union Boards interested themselves in the construction and upkeep of village roads and a few boards even went in for small town-planning schemes and for systems of street lighting. Several Union Boards in the Howrah district maintained a conservancy establishment. In some unions anti-malaria work was engaged in.

The service of criminal and revenue processes by daffadars was satisfactory on the whole. The number of Union Benches and Courts is increasing and those that worked during the year were in general popular and inspired confidence.

Most of the District Boards took much interest in the working of Union Boards, delegated duties to them and assisted them with such grants-in-aid as they could afford. Bankura District Board alone not only showed no interest or sympathy but adopted a definitely obstructive attitude towards the Union Boards which were established in its district at the beginning of the year under report and refused to fulfil even its bare statutory obligations to them—a state of affairs which obviously cannot be allowed to continue. In spite of this handicap the Union Boards in Bankura did much useful work during the year.

By order of the Government of Bengal,

J. G. DRUMMOND,

Secretary to the Government of Bengal.

NOTICE.

The electoral roll for the Calcutta University constituency of the Bengal Legislative Council which was prepared in 1926 will cease to be in force about the end of September 1929. With a view to enable the undersigned to prepare a new roll, graduates of the Calcutta University, including women graduates, of not less than seven years' standing are requested to furnish the undersigned with the particulars noted below on or before the *16th April 1929*. Only such graduates of the University as passed their first Degree examination in 1921 (and were admitted to their Degrees at the annual convocation held in 1922) or earlier will be eligible for registration in the roll. Licentiates of Medicine who obtained their Degrees under the old Regulations will be treated as graduates for the purposes of the franchise qualification—

(1) Name in full.
(Women graduates should state whether Mrs. or Miss.)

(2) Address in full.

(3) Present occupation.

(4) Place of residence.

(5) Name of the first Degree examination of the University, which he or she passed as also the year when, and the College (if any) from which he or she passed such examination.

(6) Whether he or she actually resides in the Presidency of Bengal.

(7) If he or she is also qualified for the franchise in Dacca University constituency, it should be stated in which constituency he or she wishes to be registered. An elector cannot be enrolled in more than one University constituency.

The franchise is restricted to qualified graduates (including women graduates) who are ordinarily resident in the Presidency of Bengal, in the sense that they are identified with it by actual residence during the greater portion of the year.

Applications made and substantiated at this stage will save the elector from the trouble of appearing before the Revising Officer in more formal proceedings after draft publication.

By order of the Governor in Council,

A. H. KEMM,

Additional Deputy Secretary to the Government of Bengal.

WRITERS' BUILDINGS,

CALCUTTA, *the 16th March 1929.*

N. B.—The name as written in the Diploma should be stated. If any change has been made in the name or surname of a qualified graduate with the sanction of the Syndicate the date of order for such change should be stated.

For facility of addressing women graduates they are requested to state the proper term of address—Miss or Mrs.—which is to be prefixed to their names.

Graduates whose names were registered in the electoral rolls for 1920, 1923 and 1926 are required to renew the registration of their names for 1929.

Orders by the Vice-Chancellor and Syndicate of the Calcutta University.

Senate House, the 8th March 1929.

Part VI

Bills introduced in the Council of State and Legislative Assembly, Reports of Select Committees presented to the Council and Assembly and Bills published under Rule 18 of the Indian Legislative Rules.

GOVERNMENT OF INDIA.

Legislative Department.

The following Bill was introduced in the Council of State on the 12th February, 1929:—

C. of S. Bill No. 1 of 1929.

A Bill further to amend the Presidency-towns Insolvency Act, 1909, for a certain purpose.

Whereas it is expedient further to amend the Presidency-towns Insolvency Act, 1909, for the purpose hereinafter appearing; It is hereby enacted as follows:— III of 1909.

Short title. **1.** This Act may be called the Presidency-towns Insolvency (Amendment) Act, 1929.

Amendment of section 69, Act III of 1909. **2.** In sub-section (2) of section 69 of the Presidency-towns Insolvency Act, 1909, for the words "six months" the words "one year" shall be substituted. III of 1909.

STATEMENT OF OBJECTS AND REASONS.

Sub-section (2) of section 69 of the Presidency-towns Insolvency Act, 1909 (III of 1909), requires the Official Assignee to declare and distribute the first dividend (if any) within six months after the adjudication, unless he satisfies the Court that there is sufficient reason for postponing the declaration to a later date. This provision has proved in practice to be unworkable in Madras, and the Local Government proposed to introduce a Bill in the local Legislative Council to amend the section so as to extend the period from six months to one year. As, however, the difficulty is not confined to Madras, it is considered desirable, in the interests of uniformity, to undertake central legislation to give effect to the proposal. The Bill is, therefore, brought forward with the concurrence of the Local Governments concerned.

B. L. MITTER.

The 1st February, 1929.

L. Graham,
Secretary to the Government of India.

GOVERNMENT OF INDIA.

Legislative Assembly Department.

The following Bill was introduced in the Legislative Assembly on the 31st January, 1929:—

LEGISLATIVE ASSEMBLY BILL No. 1 OF 1929.

A Bill further to amend the Code of Criminal Procedure, 1898.

WHEREAS it is expedient further to amend the Code of Criminal Procedure, 1898, in matters hereinafter appearing; It is hereby enacted as follows:— V of 1898.

Short title.

1. This Act may be called the Code of Criminal Procedure (Amendment) Act, 192 .

Amendment of section 205, Act V of 1898.

2. In section 205 of the Code of Criminal Procedure, 1898 (hereinafter referred to as the said Code), for the word "summons" the word "process" shall be substituted. V of 1898.

Amendment of section 540A, Act V of 1898.

Provision for inquiries and trial being held in the absence of accused in certain cases.

3. For section 540A of the said Code the following section shall be substituted, namely:—

"540A. (*1*) In any inquiry or trial under this Code, whenever any Judge or Magistrate is satisfied for reasons to be recorded that any accused person can or need not attend or is incapable of remaining before the Court, he may, if such accused is represented by a pleader, dispense with his personal attendance and proceed with such inquiry or trial in his absence and may, at any subsequent stage of the proceedings, direct the personal attendance of the accused.

(*2*) If the accused in any such case is not represented by a pleader or if the Judge or Magistrate considers his personal attendance necessary, he shall either adjourn such inquiry or trial or order in cases when there are more than one accused that the case of such accused be proceeded with or tried separately."

STATEMENT OF OBJECTS AND REASONS.

In the present state of the law in cases in which summonses are not issued in the first instance neither disease nor old age nor any other compulsion can exempt the accused from personal appearance at the hearing. There is no good reason why in cases in which there are very good reasons for such exemptions being granted law should insist for personal attendance of the accused on account of the accident of a process other than summons having been issued in the first instance. Such a distinction is unnecessary, arbitrary and causes hardship and delay in many cases and the present Bill is intended to remedy this grievance.

The second clause of the Bill seeks to substitute the word "process" for "summons" and to enlarge the scope of cases wherein discretion dispensing with the presence of the accused is exercisable.

The third clause seeks to amend the law by making the principle applicable to cases where there are one or more accused instead of cases where there are more than two accused.

The present section 540A could only apply if the accused whose absence was to be condoned was present before the Court and became incapable of remaining before the Court. It is contended that the utility of the present provision was very limited and in practice the present provision is neither helpful to the speedy disposal of cases or to the convenience of the accused. The amendment enlarges the scope of discretion and makes it applicable to cases when the accused is unable to attend Court or need not attend Court for good reasons and the Court can in its discretion proceed with the case.

S. C. GUPTA,
Secretary of the Legislative Assembly.

GOVERNMENT OF INDIA.

Legislative Assembly Department.

The following Bill was introduced in the Legislative Assembly on the 31st January, 1929:—

LEGISLATIVE ASSEMBLY BILL NO. 2 OF 1929.

A Bill further to amend the Code of Criminal Procedure, 1898.

WHEREAS it is expedient further to amend the Code of Criminal Procedure, 1898, for the purpose hereinafter appearing; It is hereby enacted as follows:— V of 1898.

Short title.

1. This Act may be called the Code of Criminal Procedure (Amendment) Act, 192 .

Amendment of section 552, Act V of 1898.

2. For section 552 of the Code of Criminal Procedure, 1898 (hereinafter referred to as the said Code), the following section shall be substituted, namely:— V of 1898.

Power to compel restoration of abducted persons.

"552. Whenever a complaint is made to a District Magistrate, Presidency Magistrate or Sub-Divisional Magistrate or Magistrate of the first class specially empowered in this behalf, in respect of the abduction or unlawful detention of any person or of a child under the age of eighteen years, he may order that such person or child, as the case may be, be brought before himself and compel compliance of such order using such force as may be necessary.

After examining the person or the child so brought or any other person, if necessary, he may make an order restoring the person so brought to liberty and the child so brought to the care of the parents, husband, guardian or other person legally entitled to the guardianship of the child.

In the absence of any such person referred to above or on the failure of such person taking or consenting to take the child, the Court may commit the child to the care of a suitable person or society, or society for the protection of orphans and children, with due regard to the religious and general welfare of the child, provided such person or society executes a bond for such amount as the Court thinks necessary to fix, undertaking to produce such child whenever summoned by any Court till the attainment of majority of the child."

Insertion of a new section 552-A in Act V of 1898.

3. After section 552 of the said Code, the following section shall be inserted, namely:—

Custody of a child concerned in a criminal case.

"552-A. Whenever during any proceedings under this Code or otherwise any Magistrate exercises jurisdiction in any case in which any child under the age of eighteen years is concerned as a witness, accused or otherwise and whenever any child is brought before any Magistrate, he may make an *ad interim* or final order for the proper custody of the child with due regard to the religious and general welfare of such child and may, among other orders, make, in the absence of persons entitled to the guardianship of such child or on the failure of such person taking or consenting to take care of such child, an order committing the child to the care of any suitable person or society or society for the protection of orphans or children provided such person or society executes a bond in such amount as the Court deems fit to order undertaking to produce such child whenever summoned by any Court till the attainment of majority."

STATEMENT OF OBJECTS AND REASONS.

The present section 552 was enacted to provide protection for women and female children of tender age from unlawful detention and subsequent safe custody for female children whose guardians were alive. This provision is satisfactory so far as it goes. But it is clearly incomplete. It does not contemplate the cases of orphans of either sex who have no guardians nor does it provide for cases in which minors come before Courts in ways other than rescue from unlawful detention.

Many orphanage societies exist in the country whose object is the protection of orphans and waifs and foundlings; there is no reason why the Courts should not take advantage of the existence of such societies for the protection of children.

At present there is no provision in the Criminal Procedure Code to meet such contingencies as are mentioned above. The Bill intends to make the provision relating to minors more comprehensive and complete. No special explanation of the clauses is necessary.

J. C. ROY, for *Director of Agriculture, Bengal.*

DEPARTMENT OF AGRICULTURE, BENGAL.

Monthly Weather and Crop Report of Bengal for February 1929.

I. **Character of the season.**—During the month under review, the rainfall was much in defect of the normal throughout the Presidency except only in the district of Bankura where it was slightly in excess. The usual rainfall statement is appended.

II. **Progress of agricultural operations.**—Preparatory tillage for jute and other autumn crops was progressing slowly for want of adequate rain. Reaping of early spring crops was nearly finished and that of late varieties was going on under favourable conditions.

III. **State of standing crops.**—The condition of standing crops was on the whole fair.

IV. **Prospects and probable outturn.**—A fair outturn of spring oilseed and wheat crops is expected. The prospects of other standing crops were not promising on account of continued drought.

V. **Damage to standing crops.**—Continued dry weather was causing damage to standing crops in some districts.

VI. **Condition of agricultural stock.**—The condition of livestock was reported to be generally fair. Stray cases of cattle-disease were, however, reported from about five districts of the province and from the Tripura State.

VII. **Failure of pasturage and fodder.**—No insufficiency of fodder was reported from any part of the province.

VIII. **Prices of food-grains.**—During the second fortnight of the month, the price of common rice of the cheapest quality rose in two districts, fell in thirteen and remained stationary in the rest of the Presidency. The prices ranged from 5¼ seers per rupee in the 24-Parganas to 9 seers per rupee in the Chittagong Hill Tracts.

IX. **Condition of agricultural population.**—The condition of agricultural population was, on the whole, fair.

3. The work on the **Damodar Canal Project,** which has been designed to irrigate about 200,000 acres of land in the Burdwan and Hooghly districts, was commenced during the previous year. The total capital expenditure to the end of the year 1927-28 amounted to Rs. 8,13,845 against the estimated cost of Rs. 7?,14,981. The capital expenditure of Rs. 4,40,360 during the year was mostly incurred on land acquisition, construction of the weir across the river and excavation of the canal.

4. The work on the **Bakreswar Irrigation Scheme** in the Birbhum district was started during the year. The total estimated cost of the project is Rs. 4,90,596. The capital expenditure amounting to Rs. 14,653 was mostly incurred on the excavation of a portion of the canal. The scheme, when completed, will irrigate 10,000 acres of paddy in an area subject to scarcity.

5. No capital expenditure was incurred during the year on the **Midnapore Canal,** which consists of two weirs at Midnapore and Panskura, 69·75 miles of main and branch canals used for irrigation and navigation, and 284·97 miles of distributaries. The area irrigated was 78,960 acres as against 74,032 acres in the previous year, and an average of 75,322 acres for the triennium ending March 1927. The receipts and working expenses were Rs. [illegible] and Rs. 2,02,245, respectively, the result being a net revenue of Rs. 90,916 against Rs. 25,805 in the previous year. The increased revenue is due to enhancement of water rates of leases renewed during the year and also a decrease in working expenses.

6. **The Grand Trunk Canal Project.**—The project was held in abeyance during the year. The question of this canal is under review in view of the rapid deterioration of the rivers in the western Sunderbans.

7. No capital expenditure was incurred during the year on the **Hijili Tidal Canal,** which, with the Terapakia Pass [illegible] khal leading to the Gewankhali lock entrance, M[illegible]khal, Palaboni khal and the [illegible] of 49¾ miles in length. The receipts [illegible] constitutes a navigation canal amounted to Rs. 47,911 and Rs. [illegible] and working expenses of the canal deficit of Rs. 2,376. The [illegible] Rs. 50,287, respectively, the result being a [illegible] akia and Bhaitgarh [illegible] fall in revenue is due to the closure of the Terapakia area of [illegible] locks and to the floods of 1926, which destroyed a large [illegible] crops.

N.B.—Zero of [illegible] reference to [illegible]

8. **The Calcutta and Eastern Canals** form a series of natural and artificial navigation channels extending for 834 miles for the purpose of maintaining communication between Calcutta and Eastern Bengal. No capital expenditure was incurred on this system of canals during the year. The receipts and working expenses were Rs. 4,63,254 and Rs. 5,81,618, respectively, the result being a deficit of Rs. 1,18,364 as against Rs. 2,37,596 in the preceding year. The improvement is chiefly due to decrease in expenditure on maintenance and repairs of the canals. The **Sunderbans Steamer Route** is being treated as a separate project from the Calcutta and Eastern Canals from the year 1924-25. The capital expenditure on this route is shewn as (minus) 37,464, which represents the receipts on capital account, on account of hire of dredgers. The receipts and working expenses amounted to Rs. 62,258 and Rs. 1,76,725, the result being a deficit of Rs. 1,14,467 against a deficit of Rs. 54,912 in the previous year. The comparatively large deficit is due to the heavy working expenses for thorough repairs to the dredger *Foyers* attached to this route, and dredging shoals in the Gabkhan Bharani Khal.

9. On the **Madaripur Bhil Route,** which connects the Madhumati and Kumar rivers in the Faridpur district, a capital outlay of Rs. 1,94,867 (direct only) was incurred mainly on the construction of locks and sluices on the Lower Kumar river and a flood embankment from Jalirpar to Khalia. The flood embankment was completed, but the works on the locks and sluices were in progress.

The receipts and working expen[illegible]s were Rs. 2,74,336 and Rs. 7,40,857, respectively, the result being a deficit [illegible]f Rs. 4,66,521 against a net revenue of Rs. 60,223 in the preceding year. [illegible]he very large deficit is mainly due to the fall of revenue and increase in th[illegible] working expenses. The fall of revenue was also due to the suspension of s[illegible]eamer traffic for seven months during the year on account of bad shoaling i[illegible] the Lower Kumar river, to remove which unusually heavy dredging had to b[illegible] done.

10. The **Orissa Coast Canal** in the Midnapore district is a navigation canal lying partly in the Bengal Presidency and par[illegible]ly in the province of Behar and Orissa. The receipts and working expenses fo[illegible] the portion within Bengal were respectively Rs. 20,670 and Rs. 36,799, the re[illegible]ult being a deficit of Rs. 16,129 again[illegible] a net revenue of Rs. 8,719 in the prece[illegible]ding year. The decrease in receipt[illegible]d increase in working expenses on acco[illegible]unt of special repairs to the Bh[illegible] lock and the floods of 1926 account for this deficit.

11. The **Na[illegible]s** having been thrown open to free naviga[illegible]tion with effect from the 1st [illegible] 1923, there were no navigation receip[illegible] from these rivers during the year. The maintenance charges amounte[illegible] Rs. 51,252 against Rs. 47,614 in [illegible] preceding year. The increase was [illegible] to the increased expenditure on bandalling works done at the Kaliganj entrance of the Bhagirathi river to improve [illegible] the entrance channel.

12. The **Gaighatta and Buxi Khal** is a sh[illegible]rt channel con[illegible] rivers [illegible]modar and Rupnarain in the Howrah district. The khal was lea[illegible] out for s[illegible] years from 15th June 1921 at a rental of Rs. 2,000, on the condition that the lessees maintain the khal in good condition subject to the control of the Irrigation Department. The lease has been renewed for a period of another three years from 1927-28 at a rental of Rs. 4,110.

13. The **Eden Canal** in the districts of Burdwan and Hooghly was originally constructed for sanitary purposes, but it is now used for irrigation also. At present the supply of water in this canal is precarious owing to the absence of a weir in the river Damodar. This state of things will improve when the Damodar Canal, which is now under construction, is completed. The area irrigated from the canal was 23,283 acres against 21,560 acres in the previous year. The receipts and working expenses were Rs. 50,864 and Rs. 87,217, respectively, against Rs. 43,282 and Rs. 77,3[illegible] in the previous year.

14. **Training Works.**—The conservancy operations in the river Ganges from Rajmahal to Goalundo continued to be carried out by the steamer companies on behalf of this department. Training and bandalling works were also carried out in the rivers Bhagirathi, Nabaganga and Dhalleswari as usual.

15. **Flushing and Drainage Works.**—The Amirabad Drainage project in the Contai subdivision of the Midnapore district was practically completed and four other drainage schemes in the same district, viz., Panipia, Dhunia, Barunda and Hijili schemes were under consideration, but no decision was arrived at in regard to them. The Soadighi and Gangakhali project in the same district was sanctioned and the execution of the work under Act VI of 1920 approved by Government.

The work in connection with the flushing of the Gobra Nala in the Murshidabad district and of the Bhairab river in the Meherpore subdivision of the Nadia district were in progress during the year. The former work was nearing completion. The Nowi portion of the Nowi-Sunthi project in the district of 24-Parganas was completed.

With a view to evolve flushing and drainage schemes, surveys and investigations were made into the following cases: Moragagni and Gurguria khals in the Nadia district, Datbhanga and other bhils in the 24-Parganas district, Pabla bhil, Bemorta khal and Satkhira khal in the Khulna district, Jaleswar bhil in the Jessore district, Chandana river in the Faridpur district and waterways in the Manikganj subdivision of the Dacca district.

16. **Irrigation works in Western Bengal and Northern Bengal.**—In the Birbhum district the Kashianala scheme was practically completed and the sluice was brought into operation. An extension of this scheme at an estimated cost of Rs. 27,716 was also approved and transmitted to the Collector for action under Act VI of 1920. Another irrigation scheme in the same district, called the Bamnigram scheme, which will irrigate about 1,700 acres of land, was also approved and sent to the Collector for execution under Act VI of 1920.

In the Bankura district the reconstruction of the Amjhore weir was practically completed. The Berai Irrigation scheme, designed to irrigate about 9,000 acres of paddy land, was sanctioned at an estimated cost of Rs. 5,41,193, but the work could not be taken up for want of funds.

In the Burdwan district surveys were made in connection with the Satkahonia Irrigation scheme and for the construction of a distributary from Chautpore to Joteram. The Satkahonia scheme has since been administratively approved at an estimated cost of R[illegible],[illegible]83. The canal will irrigate 12 to 15,000 acres of paddy.

In the Malda district, the [illegible] scheme has been approved and sent to the Collector for action under Act VI of 1920. Several other projects are in hand [illegible] for irrigation or for distributing silt-laden water where [illegible] prevails.

[illegible] and besides those mentioned, detailed surveys were made and are still being made of the more promising schemes in the Bankura, Birbhum and Midnapore districts, the object being to extend irrigation from the streams which traverse the undulating area in Western Bengal more liable to famine than other parts of the province. Some of these schemes, when matured, will be carried out as Government schemes under the Irrigation Act and others will be undertaken under the provisions of the Bengal Agricultural and Sanitary Improvement Act, VI of 1920.

ORDER—Ordered that a copy of the resolution be published in the *Calcutta Gazette* and a copy thereof and of its accompaniment be submitted to the Government of India in the Department of Industries and Labour (Public Works Branch) and circulated to all departments and officers of this Government, as usual.
